Interest on all classes of bonds is paid at the company's office, 5 Nassau street, New York.

The general 4 per cent. mortgage is limited to $165,490,500. Trustee of mortgage, Union Trust Co., New York.

The 4 per cent. adjustment bonds were income, non-cumulative until July 1, 1900, and cumulative thereafter. Interest on these bonds was payable November 1, out of net earnings of each fiscal year up to 4 per cent., the rate to be determined in October each year. In 1899 at request of holders of a large amount of these bonds an agreement was formulated, dated September 14, 1899, by which semi-annual payments, May and November, are made on bonds whose holders accept the agreement, the same being stamped on assenting bonds and semi-annual coupon sheets attached. A charge of 1 per cent. was at first made for such stamping, but the company in 1901 announced that holders of adjustment bonds could assent and have their bonds stamped without expense. Trustee of adjustment mortgage, Central Trust Co., New York.

The serial debenture bonds were issued February 1, 1902, and fall due—$2,500,000—on February 1 of each year from 1912 to 1914.

The convertible mortgage 4 per cent. bonds of 1905 were authorized in January, 1905, to provide for extensions, additional equipment, etc. The authorized issue is $49,711,000. Trustee, Guaranty Trust Co., New York. These bonds can be converted into common stock at the option of the holder prior to June 1, 1918. Bonds may be called at 110 and interest at any interest period, but without affecting the right of conversion while it exists. Up to June 30, 1910, $29,823,000 had been converted.

In January, 1907, additional convertible bonds to the amount of $98,000,000 were authorized, and an issue of $26,056,000 10-year 5 per cent. bonds created thereunder. The bonds up to June 1, 1913, can be converted into common stock at par at the holder's option, and can be called at 110 on any interest day, but without affecting the right of conversion while it exists. Up to June 30, 1910, $10,533,000 had been converted.

In June, 1909, stockholders were given the right to subscribe at 104 to the extent of 12 per cent. of their holdings for $28,258,000 new 4 per cent. convertible bonds, payment to be made in four instalments, viz.: 25 per cent. on subscription; 25 per cent., February 4, 1910; 25 per cent. August 4, 1910 and 25 per cent. February 9, 1911. The bonds mature June 1, 1955, are convertible into common stock at par prior to June 1, 1918, and can be called at 110; but if called may be converted if the period of conversion has not expired. Up to June 30, 1910, $23,207,000 had been converted.

In April, 1910, stockholders were offered the right to subscribe at 102½ for $43,686,000 of additional 4 per cent. convertible bonds, maturing June 1, 1960, convertible into common stock at par after June 1, 1913, and before June 1, 1923, payable 32½ per cent. June 1 to 3, 1910, and 35 per cent. each December 6 to 8, 1910, and June 1 to 3, 1911, respectively. On February 1, 1911, $27,753,000 of these bonds had been issued.

The Transcontinental Short Line 4s were issued in 1908 and cover 694 miles of auxiliary roads. They are $30,000,000 authorized, $13,000,000 being reserved for extensions. Trustee of mortgage, Guaranty Trust Co., New York.

It also acquired complete control of the Ohio River Railroad Co. and the Pittsburgh & Western Railway Co. In 1902 this company, in conjunction with the Lake Shore & Michigan Southern Railway Co., acquired large holdings of the stocks of the Reading Company, but in 1904, each company sold part of the same. On June 30, 1910, the Baltimore & Ohio owned the following amounts of stocks of the Reading Company: 1st preferred, $6,065,000; 2d preferred, $14,265,000, and common stock, $10,002,500.

The company also owns a one-sixth interest in the Richmond-Washington Co. The company owned $5,353,200 of the $10,250,000 stock of the Consolidation Coal Co., but sold the same in 1906.

The company used at Chicago the terminals of the Chicago Terminal Transfer Co. under rental. This company held on June 30, 1909, $8,508,100 of the Terminal Co's preferred stock; and in 1910, it was reorganized as the Baltimore & Ohio, Chicago Terminal Railroad Co., all the stock of which is owned by this company.

In August, 1909, the Baltimore & Ohio obtained control of the Cincinnati, Hamilton & Dayton Railroad Co. and has the right to purchase it in 1916, at a price to be settled upon by arbitrators. See statement of that company.

Of the stocks, $236,401 common and $1,108,695 preferred is held by the company.

The preferred stock is 4 per cent., non-cumulative. Question having been raised as to whether the preferred was entitled to only 4 per cent. per annum or should share with common in the surplus over that amount, a suit was brought in November, 1900, to test the question, and it was decided that only 4 per cent. could be claimed by the preferred.

The amount of preferred stock originally authorized was $40,000,000, which was subsequently increased to $60,000,000. The common stock was originally $45,000,000, authorized, which was increased to $60,000,000 in February, 1901, to provide for the redemption of the convertible debentures. In November, 1901, it was increased to $100,000,000 to acquire the stocks of auxiliary roads and for improvements. In 1902 it was again increased to $125,000,000. In April, 1900, the common stockholders had the right to new common stock at 80 to the extent of one share for each six shares they held. In December, 1901, the stockholders subscribed for $22,537,200 new common at par, and in September, 1902, the stockholders subscribed at par for 30 per cent. of their holdings in new common stock, adding about $42,500,000 to the amount of the latter outstanding. In April, 1906, $27,750,000 additional common was authorized and offered to stockholders at par, the new stock participating in dividends after September 1, 1906.

The first dividend after the reorganization was 2 per cent. on the preferred, paid April 1, 1900. Since that time semi-annual dividends on the preferred have been regularly paid on March 1 and September 1. A dividend of 4 per cent. on the common stock out of the earnings of the fiscal year ending June 30, 1900, was declared payable, 2 per cent. September 4, 1900, and 2 per cent. March 1, 1901, and the common dividends were on the same basis with payments semi-annually in March and September, until September 1, 1905, when the semi-annual rate was increased to 2½ per cent. In March, 1906, 2½ per cent was also paid, but the September, 1906, dividend was increased to 3 per cent. or 6 per cent. annually, which has since been the regular rate.

The Pennsylvania Railroad Co. acquired a large stock interest in the company in 1900-01, but in September, 1906, sold a large block thereof, which was acquired by the Union Pacific Railroad Co.

The lines of the company extend from Baltimore and Philadelphia via Pittsburg and Wheeling, W. Va., to Chicago, Cincinnati, St. Louis and Louisville, Ky. It obtains an entrance to New York by trackage from Philadelphia over the lines of the Reading and Central Railroad of New Jersey systems. The property is operated under the following grand divisions:

	Miles
New York Division	5.39
Main stem District	1,103.23
Wheeling District	1,138.82
Pittsburg District	918.31
Northwest District	283.89
Southwest District	984.75
Total	4,434.39

In addition to the above the company controls through stock ownership the Staten Island Rapid Transit Railway Co., 11 miles, and the Staten Island Railway Co., 13 miles which are not included in the above mileage. It includes, however, the mileage of the Ohio River Railroad, the Cleveland Terminal & Valley Railroad and the Cleveland, Lorain & Wheeling Railway.

The company has acquired the entire capital stock of the Cleveland, Lorain & Wheeling Railway Co. It also acquired complete control of the Ohio River Railroad Co. and the Pittsburgh & Western Railway Co. In 1902 this company, in conjunction with the Lake Shore & Michigan Southern Railway Co., acquired large holdings of the stocks of the Reading Company, but in 1904, each company sold part of the same. The Chattahoochee & Gulf 5s are not an obligation of the Central of Georgia Railway Co.

The $650,000 of 5 per cent. notes, due 1912, are secured by the bonds of the Wadley Southern Railway Co.

The three classes of preferred income bonds are in order of priority entitled to 5 per cent. each when earned, non-cumulative. In October, 1896, company paid 1½ per cent. on 1st preference incomes; on October 1, 1897, paid 2¼ per cent.; on October 1, 1898, 2 per cent.; October 1, 1899, 2 per cent.; October 1, 1900, 3¼ per cent.; October 1, 1901, 5 per cent.; October 1, 1902, 3 per cent.; October 1, 1903, 5 per cent., and October 1, 1904, 5 per cent. In August, 1908, it was announced that no payments would be made on any of the three classes of income out of the earnings for 1907–08, and none have since been declared. See below.

In September, 1905, the company made arrangements whereby holders of the income bonds could, on presenting them at the Guaranty Trust Co., New York, Trustee, and paying 50 cents per bond, have coupon sheets for the interest attached to same, bonds thus presented being termed "stamped" bonds.

In September, 1907, certain holders of the 2d and 3d incomes formed a protective committee: Chairman, Charles Altschul, New York, and Secretary, Joseph S. Dale. Deposits were requested by the committee of the 2ds with the Central Trust Co., New York, and of the 3ds with the Manhattan Trust Co., New York. In September, 1908, a committee was formed to represent the 1st incomes: Depositary, Metropolitan Trust Co., New York. Secretary, J. S. Dale.

In December, 1910, the Superior Court of Georgia, affirmed the decision of the lower Court in favor of the bondholders in an action brought by the latter to establish the adequacy of the earnings for the payment of interest on the income bonds for 1907. In accordance therewith the balance of 1.271 per cent. on the 2d incomes and 5 per cent. on the 3d incomes for 1907 was paid February 6, 1911.

CINCINNATI, HAMILTON & DAYTON RAILWAY CO.

A corporation formed under the laws of Ohio in 1895, being a consolidation of the railroad company of same name with the Cincinnati, Dayton & Ironton Railroad Co. and the Cincinnati, Dayton & Chicago Railway Co.

In July, 1904, control of the Pere Marquette Railroad Co. was acquired through the purchase of a majority of the $16,000,000 of the latter's common stock, and the Chicago, Cincinnati & Louisville Railway was also acquired jointly with the Pere Marquette. In January, 1905, a lease of the Pere Marquette was authorized, this company guaranteeing 5 per cent. on that company's common stock. At the same time a lease of the part of the Chicago, Cincinnati & Louisville Railway within the State of Ohio was authorized. See below for further details.

In September, 1905, a controlling interest in the company's common stock was acquired by the Erie Railroad Co., but in November, 1905, the Erie accepted the offer of the vendors to resume control and relieve the Erie from responsibility in the matter.

On December 5, 1905, a Receiver was appointed for the Cincinnati, Hamilton & Dayton Railway and the Pere Marquette Railroad on account of insolvency and the existence of rental obligations beyond their power to carry.

At the annual meeting in October, 1907, the Pere Marquette lease was abrogated. On January 1, 1907, the Chicago, Cincinnati and Louisville Railway was returned to its former owners.

See below for details as to the plan whereby the company resumed possession in August, 1909, a reorganization being without foreclosure. The arrangement involves the management of the property by the Baltimore & Ohio Railroad Co., and that company acquired the right to take over a controlling interest in the stock on July 1, 1916, at a price to be fixed by arbitration. The controlling stock is, meanwhile, to be held in a voting trust with the President of the Baltimore & Ohio as one of the three trustees.

Road owned, Cincinnati to Dayton, O., 59 miles; Dayton to Ironton, O., 165 miles; Dayton to Delphos, O., 95 miles; total owned, 319 miles; leased, Dayton & Michigan, Dayton to Toledo, 142 miles; other leased lines, 3 miles; total leased, 145 miles; controlled, Cincinnati, Indianapolis & Western, Hamilton to Springfield, Ill., 284 miles; other branches, 227 miles; total controlled, 511 miles; trackage, 61.53 miles; total, 1,036.53 miles.

The company owned $11,000,000 stock of the Pere Marquette Railroad Co., but about March 1, 1911, it was announced that it had sold the same. It has a joint interest in the Dayton & Union, 47 miles, which is operated by the Cleveland, Cincinnati, Chicago & St. Louis. In 1904 the company acquired traffic rights and the use of the terminals of the Toledo Railway & Terminal Co., in connection with the Pere Marquette. The company has a joint interest with the Southern Railway in the control of the Cincinnati, New Orleans & Texas Pacific Railway, 338 miles. Locomotives, 225; passenger cars, 213; freight cars, 12,800.

The company, prior to the readjustment effected in 1909, had $1,074,500 of old preferred stock 4 per cent. cumulative. It also had $6,925,500 new preferred 5 per cent. non-cumulative.

In July, 1904, the company offered the holders of its 4 per cent. preferred $100 per share, and those of the 5 per cent. preferred $110 per share for their stock, it being proposed to retire the preferred stocks. Under this arrangement all the $1,074,500 4 per cent. preferred and the greater part of the 5 per cent. preferred stocks were acquired. The stocks thus purchased by the company, amounting to $7,751,425, were deposited as part of the collateral for $15,000,000 of 4½ per cent. collateral gold notes issued in 1905. Under the reorganization plan of 1909, the preferred stock held as collateral was cancelled, leaving only $248,575 of the 5 per cent. preferred outstanding. See above regarding the placing of a controlling interest in the stocks in a voting trust until July 1, 1916.

In January, 1911, about $3,534,000 of car trusts were outstanding.

This company guarantees 8 per cent. on the $1,211,250 preferred stock, and 3½ per cent. on $2,401,950 of the common stock of the Dayton & Michigan and 5 per cent. on $100,000 of Home Avenue Railroad common. See statement of the last-named company.

The readjustment plan agreed upon in June, 1909, included the retirement of all but $248,575 of the $8,000,000 of preferred stock and the creation of a new 1st and refunding mortgage for $75,000,000 and a new general mortgage for $20,000,000. Holders of the $15,000,000 of 4½ per cent. notes, received for each $1,000 note, $60 in cash and $1,000 in new general 4½ per cent. mortgage bonds, interest depending upon earnings until July 1, 1911, when interest becomes 1 per cent. fixed and 3½ per cent. income until July, 1914, then 3 per cent. fixed and 1½ per cent. income until July, 1916, and 4½ per cent. fixed thereafter. The fixed interest is payable January and July, and the contingent interest is payable yearly November 1. The general 4½ per cent. bonds issuable under the plan of which $15,000,000 were to retire the notes and $5,000,000 for floating debt, etc., are subject to call on any July 1, prior to 1916, in exchange for a 4 per cent. bond issued under the general mortgage and guaranteed by the Baltimore & Ohio. The 4½ per cent. generals are also subject to call at par and interest. Trustee of mortgage, Central Trust Co., New York. Agents for payment of interest, J. P. Morgan & Co., New York.

It was provided that $12,500,000 of the $14,500,000 of 1st and refunding mortgage bonds immediately issuable under the plan should be guaranteed by the Baltimore & Ohio, the amount in question being to retire Receivers' certificates and other indebtedness, provide working capital and pay for urgent improvements. There are also $13,000,000 of the 1st and refunding 4s held as collateral for the $11,557,000 of 4 per cent. collateral trust purchase money notes due July, 1913, this collateral being substituted for old refunding mortgage bonds (which have been cancelled) and other securities. The Baltimore & Ohio guarantees the outstanding $11,557,000 of 4 per cent. notes, principal and interest.

The Dayton & Michigan consolidated mortgage, 5 per cent. bonds for $2,728,000 matured January 1, 1911, but were extended for 20 years to 1931, at 4½ per cent., the company being entitled to redeem them on January 1, 1917, or any subsequent interest period at 102½.

THE COLORADO & SOUTHERN RAILWAY CO.

(Controlled by Chicago, Burlington & Quincy Railroad Co.)

A corporation formed under the laws of Colorado, December 19, 1898, to take over the property of the Union Pacific, Denver & Gulf Railway, and the Denver, Leadville & Gunnison Railway Co., which were sold under foreclosure November 18 and 19, 1898, respectively, and purchased by the reorganization committee.

In December, 1908, $23,657,500 of this company's common stock, carrying with it practical control was acquired by the Chicago, Burlington & Quincy Railroad Co.

This company's system extends from Orin Junction, Wy., via Denver and Fort Worth, Texas to Galveston, with numerous branches. It constitutes a short line from the Rocky Mountains to Gulf tidewater. Road operated as the "Colorado & Southern Lines," June 30, 1910, 2,061.93 miles, of which 388.59 miles were narrow gauge. Trackage on Union Pacific and Denver & Rio Grande Railroads, 165 miles. Controlled or operated lines include Colorado Railroad, 41.55 miles; Walsenburg & Western, 1.35 miles; Fort Worth & Denver City Railway Co., 454.14 miles; Colorado Springs & Cripple Creek District Railway Co., 74.24 miles; Wichita Valley lines, 256.90 miles; Denver & Interurban Railroad, 28.79 miles; total, 2,061.93 miles. The Trinity & Brazos Valley, 422 miles, is controlled jointly by this company and the Rock Island. At the beginning of 1911, this company through its subsidiary, the Colorado Railroad Co., was building a line from Cheyenne to Wellington, connecting its Wyoming Division with the main system and was building with the Denver & Rio Grande Railroad Co. a joint double track line from Southern Junction to Walsenburg Junction.

Locomotives, 307; passenger cars, 292; freight cars, 9,666; service cars, 449. These figures represent the equipment of the Colorado Southern lines, including the controlled roads.

In 1900 this company and the Rio Grande Western Railway Co. jointly acquired control of the Colorado Midland Railway Co., 337.64 miles; which is now jointly controlled by the Colorado & Southern Railway and the Denver & Rio Grande Railroad.

In 1905 this company acquired the Colorado Springs & Cripple Creek District Railway and the Fort Collins Development Railway Co., now merged with the Colorado Railroad Co. In the same year it acquired the securities of the Trinity & Brazos Valley Railway, Cleburne, Tex., to Mexia, Tex., 79 miles, an extension of which road from Mexia to Houston, 157 miles, was built in 1906. In 1905 arrangements were made for trackage over the Gulf, Colorado & Santa Fe Railway (Atchison System) from Fort Worth, Tex., to Cleburne, 28 miles, and from Houston, Tex., to Galveston, 48 miles. The above constitutes a through line from Fort Worth to Galveston. In 1906, the Rock Island Co. purchased a one half interest in the stock of the Trinity & Brazos Valley Railway, subject to the liens thereon. See below in relation to the Colorado & Southern's refunding and extension bonds.

The Detroit Southern's Ohio Southern Division 4 per cent. bonds were not disturbed in the reorganization of that company. The mortgage, Central Trust Co., New York, trustee, is a purchase-money mortgage covering the lines of the former Ohio Southern Railroad, 224 miles. The total amount of the mortgage is $4,500,000. Payment of the September, 1909, interest on these bonds was deferred, but was paid together with the March 1, 1910, coupons at the last named date. The September, 1910, coupons were paid at maturity. There is a committee representing these bonds: Chairman, James N. Wallace, New York. Depositary, Central Trust Co., New York.

Trustee of the mortgage, New York Trust Co. There is a committee representing these bonds: Chairman, Otto T. Bannard. Depositary, New York Trust Co., New York.

The consolidated mortgage is for $22,500,000, and has a first lien upon the stock of the Toledo Southern Railroad. Trustee of the mortgage, Knickerbocker Trust Co., New York. In addition to amount outstanding, $5,000,000 of these bonds were pledged as security for the company's 5 per cent. collateral notes. The February, 1908, interest was defaulted. Committee to represent the bondholders: Chairman, John Alvin Young, New York; Depositary, Windsor Trust Co., New York. There is also a second committee: Chairman, Alvin W. Kretch, New York; Depositary, Equitable Trust Co., New York.

In 1905, the company created an issue of $5,500,000 5 per cent. notes due December, 1908, interest June and December, secured by $5,000,000 consolidated mortgage bonds of this company and by $2,190,000 common and $3,001,000 preferred stock of the Ann Arbor Railroad Co. An additional $1,500,000 of the notes could be issued to acquire the remaining stock of the Ann Arbor Railroad Co. Trustee, United States Mortgage & Trust Co., New York. The June, 1908, coupon was defaulted and a sale of the collateral for the notes was ordered, such sale, however, being several times postponed. There were two committees formed in connection with the notes, Joseph Ramsay, Jr., being Chairman of one, with the New York Trust Co. as Depositary; the Chairman of the other being E. Rollins Morse, with the Windsor Trust Co. as Depositary. The latter, however, was merged with the Ramsay Committee. In November, 1910, the collateral was sold and was purchased by the Ramsay Committee, thus giving the latter control of the Ann Arbor property.

Under the reorganization plan the mortgages on the New York, Pennsylvania & Ohio were foreclosed and that road was reorganized as the Nypano Railroad Co., subject to $8,000,000 prior lien bonds of the old company. All the stock and bonds of the Nypano Co. were transferred to this company and it owns the entire stock of the Chicago & Erie.

The company also controls the New Jersey & New York Railroad, 37 miles, operated separately. The New York & Greenwood Lake Railway, 51 miles, is leased for rental equal to its fixed charges, and in 1899 the Northern Railroad of New Jersey, 26 miles, was leased and 4 per cent. guaranteed on its $1,000,000 of stock. In January, 1898, control of the New York, Susquehanna & Western system was acquired and the preferred stock of that company was exchanged at 90 for Erie 1st preferred and its common stock at par for Erie common.

In January, 1901, the company purchased the entire capital stock of the Pennsylvania Coal Co., paying for the same $32,000,000 in its collateral trust fifty-year 4 per cent. gold bonds and $5,000,000 in 1st preferred stock.

The company's entire stock was held in a voting trust for 5 years, or until the 1st preferred received 4 per cent. in a year. This trust expired in 1904 through the payment of a full year's dividend on the 1st preferred stock.

Transfer Agents, J. P. Morgan & Co., New York. Registrar, Mercantile Trust Co., New York.

The first dividend declared by the reorganized company was 1½ per cent. on the 1st preferred stock, paid August 30, 1901. Semi-annual dividends of 1½ per cent. each were also paid on the 1st preferred in February, 1902; August, 1902, and February, 1903. On August 31, 1903, a semi-annual dividend of 2 per cent. was paid on the 1st preferred stock, and another of 2 per cent. was also paid February 29, 1904, which put the 1st preferred on a full 4 per cent. basis. Subsequent dividends on the 1st preferred were at the rate of 4 per cent. per annum, paid half yearly, 2 per cent., the dividend dates in 1906 being February 28 and September 7. In April, 1907, 2 per cent. cash was again paid, but the dividend declared in September, 1907, was made payable in 10-year scrip, due October, 1917. See below. The first dividend on the 2d preferred stock was 4 per cent. annual, declared in September, 1905, and payable 2 per cent. in October, 1905, and 2 per cent. April 6, 1906. In 1906, 4 per cent. was again declared on the 2d preferred, payable, 2 per cent. October 9, 1906, and 2 per cent. April 9, 1907. In September, 1907, 4 per cent. was declared payable in 10-year scrip, 2 per cent. thereof on October 10, 1907, and 2 per cent. on April 10, 1908.

The New York State Public Service Commission, Second Division, whose ratification was necessary for the issue of dividend scrip to pay the last mentioned dividends on the 1st and 2d preferred stock, refused its consent March 19, 1908, thereby preventing the payments in question and no dividends have been paid on either class of preferred stock to March 1, 1911, inclusive.

GRAND TRUNK PACIFIC RAILWAY CO.

(Controlled by the Grand Trunk Railway Co.)

A corporation formed under a charter from the Dominion of Canada, October 24, 1903, The company was organized to build and operate for an extension of the Grand Trunk Railway system to the Pacific coast of Canada.

The main line projected is to extend from Moncton, N. B., to Quebec, thence to Winnipeg, and from that point to the Pacific at Prince Rupert, B. C., about 3,550 miles, exclusive of branches. The Eastern Division, Moncton to Winnipeg, about 1,800 miles, was to be built by the Canadian Government and to be leased on completion to the company for fifty years at a rental equivalent to 3 per cent. per annum on the cost of construction, the Government, however, agreeing if necessary to pay the interest charges for the first seven years of the lease. The Western Division, Winnipeg to the Pacific, about 1,755 miles is to be built by the company and is divided into two sections: the Prairie Section, Winnipeg to the Rocky Mountains, about 916 miles, and the Mountain Section, from the Rocky Mountains to the Pacific, about 839 miles. The Canadian Government agreed to guarantee principal and interest of 1st mortgage bonds on the Western Division at the rate of 3 per cent. per annum for fifty years to the extent of three-fourths the cost of the line which, however, for the Prairie Section shall not exceed $13,000 per mile. The Government agreed to pay the interest on the proportion of bonds on the Mountain Section which it guarantees for the first seven years without recourse to the company. The Grand Trunk Railway Co. is to guarantee principal and interest at the rate of 4 per cent. on the bonds issued for the remaining one fourth the cost of the Western Division. In consideration of this guaranty the Grand Trunk Railway Co. is to receive all the capital stock of this company except the shares necessary to qualify the directors.

A line known as the Lake Superior Branch is to extend from Fort William, Ont., to a connection with the main line of the Eastern Division, about 188 miles. This branch is to be built by the company, and in aid thereof the Province of Ontario has granted a cash subsidy of $2,000 per mile and a land grant of 6,000 acres per mile.

Branches connecting the Eastern Division with the lines of the Grand Trunk Railway Co. are also contemplated as well as extensions to various points in the Canadian Northwest and British Columbia, and also to Dawson, Yukon Territory. During 1907 to 1910, inclusive, construction work was in progress, and at the beginning of 1911, 1,161 miles of the Prairie section, 100 miles of the Mountain section and 191 miles of the Lake Superior branch had been completed, making 1,356 miles in operation.

Stock.....Par $100.....Authorized, $210,000,000.....Issued, $209,950,700

The stock issued and outstanding is styled "preferred" although there is no common stock either authorized or issued. See below.

Stock is transferred at the office of the company, New York. Registrar, Central Trust Co., New York.

From 1892 to 1896 inclusive 5 per cent. dividends were paid. In August, 1897, the rate was increased, making 5½ per cent. paid in 1897. In 1898 the rate was further increased to 6¼ per cent., and in 1899 and subsequent years 7 per cent. was paid on the stock. Dividends are paid quarterly, 1¾ per cent. each, in February (1), May, August and November. In May, 1901, ½ per cent. extra, and in November, 1907, 1½ per cent. extra were paid from the earnings of the Lake Superior Co., Limited.

Originally, in 1890, $20,000,000 6 per cent. preferred non-cumulative stock was issued at 50 to St. Paul, Minneapolis & Manitoba stockholders, the other 50 per cent. being paid for a transfer to this company of the St. Paul, Minneapolis & Manitoba treasury securities when this company leased the St. Paul, Minneapolis & Manitoba and guaranteed 6 per cent. on its $20,000,000 of stock. The Great Northern common stock authorized was $20,000,000, but none was issued. In 1893, $5,000,000 additional preferred was issued at par to pay for equipment, terminals, etc. In 1898 preferred stock was increased $25,000,000; of this $15,000,000 was sold to stockholders *pro rata* at par and proceeds used to retire the company's $15,000,000 of 4 per cent. collateral trust bonds and $10,000,000 was given to stockholders in exchange for the $12,500,000 stock of the Seattle & Montana Railroad which had been distributed on the stock of the Great Northern as a 50 per cent. dividend. By these operations the Great Northern preferred stock was raised to $50,000,000.

In October, 1898, the company decided to surrender the right to issue common stock and to increase the authorized stock to $75,000,000, making all the stock uniform as to character and rights. The $25,000,000 new stock was offered to the holders of the St. Paul, Minneapolis & Manitoba's $20,000,000 of stock in payment for their shares at $125 each. A large majority of the St. Paul, Minneapolis & Manitoba stockholders accepted in advance.

In April, 1899, the stock was increased $15,000,000, making the authorized total $90,000,000, and the increase was offered to stockholders at par, proceeds being used to acquire the bonds and stock of the Spokane Falls & Northern and other branches, and $7,500,000 new stock of Eastern Railway of Minnesota. In January, 1900, another increase of $9,000,000 was offered to stockholders at par, the purpose being to acquire additional mileage. This increased the authorized stock to $99,000,000. In April, 1900, a further issue of $1,000,000 stock was authorized, to be offered solely to the Great Northern Employees Investment Co., a corporation organized for the benefit of the company's employees. This increased the capital stock to $100,000,000. In March, 1901, a further increase of $25,000,000 in the stock was announced, making the total $125,000,000. Stockholders were given the right to subscribe at par for the increase in the proportion of 25 per cent. of their holdings, being credited with $20 per share on such subscriptions, thus making the price paid by them for the new stock $80 per share. In September, 1905, a further issue of $25,000,000 stock was authorized, and was subscribed for at par by the stockholders.

Under date of December 11, 1906, the company announced a further increase in the stock of $60,000,000, making the authorized amount $210,000,000. The stockholders of record January 4, 1907, were offered the right to subscribe for the new stock at par to the extent of 40 per cent. of their holdings. Payments for subscriptions were made in instalments between January 7, 1907, and April 7, 1908.

The purchasing companies and the interest acquired by each were as follows: Pittsburg, Cincinnati, Chicago & St. Louis Railway Co., two-sixths; Baltimore & Ohio Railroad Co., Chesapeake & Ohio Railroad Co., Lake Shore & Michigan Southern Railway Co., and Erie Railroad Co., one-sixth each. See MANUAL for 1910 as to details of the transaction.

In August, 1906, a plan was proposed for a consolidation with the Kanawha & Michigan Railway Co., involving the retirement of the company's preferred stock, but this plan met with objections by the State of Ohio and was never carried out. See MANUAL for 1909 for details.

In March, 1910, it was announced that the Chesapeake & Ohio Railway Co. had acquired from the other trunk line railroad companies their respective holdings of the common stock of the Hocking Valley, carrying control of the road. The Chesapeake & Ohio now owns $7,501,800 of the $11,000,000 of this company's common stock out of the total of $11,000,000 thereof. At the same time the Lake Shore & Michigan Southern Railway Co. and the Chesapeake & Ohio Railway Co. jointly acquired the Kanawha & Michigan Railway. See statement of the Chesapeake & Ohio Railway Co. The Lake Shore & Michigan Southern Railway Co. also acquired control of the Toledo & Ohio Central, including this company's interest in the Middle States Construction Co.

It was proposed to increase the common stock to $26,000,000 authorized, and a meeting was called for May 11, 1910, to act on this proposition, but action has been delayed by a suit brought by some small minority shareholder.

INTEROCEANIC RAILWAY OF MEXICO, LIMITED

A corporation formed under the laws of Great Britain in 1888. It acquired concessions from the Government of Mexico for the building and operation of a railroad from Vera Cruz to Acapulco, via the City of Mexico, the concession being for 99 years from 1883. The line from Vera Cruz to the City of Mexico was completed in 1891.

Road owned, main line, Vera Cruz to the City of Mexico, via Puebla, 342 miles; branches and leased line, 684 miles; total, 1,026 miles.

Locomotives, 106; passenger cars, 137; freight cars, 1,565.

In 1901, a company called the Mexican Eastern Railway Co., Limited, was promoted by the Interoceanic Co. for the purpose of acquiring the Nautla Railway, 79 miles, and constructing a cut-off of 61 miles from Virreyes to San Nicolas to reduce the distance and grades on the Interoceanic main line. Upon the completion of this cut-off the Mexican Eastern Railway was taken over on lease.

In 1903 the National Railroad Co. of Mexico obtained from the Mexican Government considerable interests in the securities of this company and a contract was made by which that company assumed the operation of the road on behalf of the company. These interests passed to the National Railways of Mexico, which holds £1,255,330 common stock, £142,800 1st preference stock, £102,000 2d preference stock and £1,038,450 debentures.

The Mexican Southern Railway Co., 292 miles, is leased from January 1, 1910, for the balance of time of its concession, and as the concessions of the Interoceanic Railway expire before those of the Mexican Southern, the contract provides that after the expiration of the former company's concessions the contract will continue in favor of the National Railways of Mexico. The rental is a sufficient amount to provide principal and interest of the Mexican Southern's £875,000 4 per cent. debentures and the retirement of its £1,000,000 stock, together with dividends on the stock progressing in amount from 3½ per cent. in 1910 to 5¼ per cent. in 1917, and 5 per cent. thereafter.

NATIONAL RAILWAYS OF MEXICO

A corporation, the legal title being "Ferrocarriles Nacionales de Mexico," formed March 28, 1908, under a special Act of the Congress of Mexico of December 26, 1906, and a decree by the Federal Executive of July 6, 1907. The purpose of the company was to carry out a readjustment and union, under the control of the Mexican Government, of the National Railroad Co. of Mexico (already practically controlled by the Government), 1,695 miles, including the Hidalgo and Northeastern Railroad, 152 miles, and the Mexican Central Railway Co., Limited, 3,510 miles; the properties of the Mexican International Railroad Co., 894 miles, controlled by the National Co., to be acquired as soon as convenient. No change was contemplated in the status of the Interoceanic Railway of Mexico (Acapulco to Vera Cruz), Limited, 736 miles, an English corporation, controlled and managed by the National Co. The property of the Hidalgo Road was transferred to the National Railroad Co. of Mexico, on December 31, 1908, and the property of the National Railroad Co. of Mexico, was transferred to the new company, January 1, 1909, and of the Mexican Central Co., on February 1, 1909. The plan was issued April 6, 1908, and declared operative May 28, 1908. Separate statements of the National Railroad Co. of Mexico, and of the Mexican Central Railway Co., Limited, were given under their respective titles in the 1909 edition of the MANUAL.

Road operated June 30, 1910, standard gauge, 4,734.33 miles; narrow gauge, 527.31 miles; total, 5,261.64 miles. Locomotives, 675; passenger cars, 496; freight cars, 14,176.

In August, 1910, the company acquired the Vera Cruz al Istmo Railroad (formerly the Vera Cruz & Pacific Railroad), 263 miles, and the Pan-American Railroad, 284 miles. The corporate existence of these companies is still maintained and their earnings reported separately.

The principal terminus of the Company is the City of Mexico; the main lines of the Central, National and Interoceanic running therefrom as follows: that of the Central in a northwesterly direction to Ciudad Juarez, State of Chihuahua, Mexico, opposite El Paso, Texas; that of the National in a northerly direction to Nuevo Laredo, Tamaulipas, Mexico, opposite Laredo, Texas; that of the Interoceanic in a southeasterly direction from the City of Mexico to Vera Cruz, in the State of Vera Cruz. In the case of the International, the main line runs from Ciudad Porfirio Diaz, Coahuila, Mexico, opposite Eagle Pass, Texas, to the City of Durango, with an extension to Tepehuanes, and from Reata to Monterey.

There are various important branch lines, among others being the two lines running to the Port of Tampico; the line from Irapuato in the State of Guanajuato to Manzanillo, in the State of Colima, on the Pacific Coast; and the line from Monterey to Matamoras on the Gulf of Mexico.

Stock is transferred at the office of the company, New York. Registrar, Union Trust Co., New York.

Dividends on both classes of stock, aggregating 10 per cent. per annum are paid from New York Central rental, 5 per cent. each in January and July. The dividends from Metropolitan Street Railway rental usually paid, 2 per cent., each in April and October, were not paid from and including April 1, 1909, the rental having been reserved on account of litigation respecting special franchise taxes assessed against the street railway line. In June, 1910, a partial settlement was made and it was arranged that 3 per cent. per annum should be paid on the street railway lease, the first payment being 1½ per cent., October 1, 1910.

On October 2, 1899, $2,500,000 was distributed to the stockholders from the company's surplus, making a dividend of $12.50 per share.

Funded Debt

Refunding mort., 3½ per cent., due May, 2000, May and Nov..... $12,000,000

The lease to the New York Central & Hudson River Railroad Co. is for 401 years from 1873, the rental being interest on the bonds and 8 per cent. on the stock. In connection with the refunding of the old 7 per cent. bonds into 3½ per cent. in 1900, it was agreed that the lease rental should be increased 2 per cent., making the dividends paid the New York & Harlem stockholders by the New York Central 10 per cent. per annum or 5 per cent. semi-annually, instead of 4 per cent. This increase began with the July, 1900, payment.

The lease of the company's street railway property to the Metropolitan Street Railway Co. in 1896 provided for yearly rental of $350,000 for five years, rising to 4 per cent. on the company's stock.

It was proposed to include this company's 7 per cent. consolidated mortgage bonds, maturing May 1, 1900, in refunding plan of New York Central & Hudson River Railroad formulated in April, 1897. Litigation on the part of stockholders was instituted, and the issue of the 3½ per cent. refunding bonds of the company was finally authorized and issued for the retirement of the old 7s. Trustee of the 3½ per cent. refunding mortgage is the Guaranty Trust Co., New York. Interest thereon is paid at the company's office, Grand Central Terminal, New York. The company has disputed the franchise taxes assessed against its street railroad property amounting to some $800,000 and litigation on this subject is in progress.

Earnings are included in those of the lessee company.

In 1899-1900 this company and the Pennsylvania Railroad Company acquired interests in the Chesapeake & Ohio Railway Co. In January, 1909, the company sold its interest amounting to about $8,000,000.

The control of the Lake Shore and the Michigan Central roads, by an exchange of this company's 3½ per cent. collateral trust bonds for their stocks, was obtained in 1899. On November 15, 1899, leased the Boston & Albany, possession of which was assumed July 1, 1900. In 1909, the Fall Brook Railway, the Syracuse, Geneva & Corning Railway and the Pine Creek Railway Companies were consolidated as the Geneva, Corning & Southern Railway Co., and a new lease was made to this company. In 1909, authority was also given to purchase the stock of the Spuyten Duyvil & Port Morris Railroad Co. The company owns all the stock, $1,000,000, of the Western Transit Co., which has a fleet of 14 vessels on the lakes, with barges, etc., and dock facilities at Buffalo.

In 1904 the company acquired large interests in electric trolley properties in central New York, and in 1905 the Mohawk Valley Co., which the company controlled, was formed to take over the interests in question which comprised control of the Utica & Mohawk Valley Railway, the Syracuse Rapid Transit Co., the Rochester & Eastern Rapid Railway Co., Rochester & Suburban Railway Co., the Rome City Street Railway and the Rochester Railway & Light Co., together with a half interest in the Schenectady Railway Co. In 1909, these trolley interests were combined under the New York State Railways, a corporation controlled by this company. See statement of the New York State Railways. In 1904–05 comprehensive plans were made and the work begun for the enlargement of the Grand Central Station and the passenger terminals at New York and the installation of electric power upon the line approaching the same, the last named being put in operation in 1907.

In 1897 the company formulated a plan for refunding its bonded debt through an issue of $100,000,000 3½ 100-year gold bonds, due 1997 (Jan. and July), of which $15,000,000 are reserved for additions and improvements after 1903. The $12,000,000 7 per cent. consols of the New York & Harlem Railroad, maturing 1900, were to be included in this arrangement, but controversy with that company's stockholders caused a new arrangement by which the issue was refunded by 3½ per cent. bonds of the New York & Harlem itself.

In 1904 the company created an issue of $50,000,000 4 per cent. debentures, due 1934, of which $30,000,000 were sold to provide for improvements, including the substitution of electric for steam power in connection with New York suburban traffic and at the Grand Central Terminal in New York. In 1908, $13,000,000 additional debentures were sold.

On February 4, 1898, the company authorized a $100,000,000 3½ 50-year gold bond issue to be exchanged for the stock of the Lake Shore & Michigan Southern at 200 for the $50,000,000 of the latter. The offer, it was stated, was accepted in advance by the larger interest, and other holders of Lake Shore were given until April 14, 1898, to accept. The bonds are secured by deposit of the Lake Shore stock acquired with the Guaranty Trust Co., New York, trustee, interest being payable at the company's office, Grand Central Terminal, New York.

In February, 1898, the company authorized $21,550,000 of similar 3½ per cent. bonds to be offered in exchange for the $18,738,000 of stock of the Michigan Central Railroad at 115 for the latter. These bonds are secured by the Michigan Central stock acquired. The stock acquired is held as collateral for the bonds by the Guaranty Trust Co., New York, trustee. Interest on the bonds is paid at the company's office, Grand Central Terminal, New York.

The $30,000,000 of New York Central Lines 5 per cent. serial equipment trust bonds, of which $2,000,000 mature annually November 1, were created in 1907 and are secured by certain rolling stock, being jointly and severally guaranteed by the New York Central itself, the Lake Shore & Michigan Southern, the Michigan Central, the Cleveland, Cincinnati, Chicago & St. Louis and the Chicago, Indiana & Southern Railroad Companies.

In 1910, the same companies authorized and issued $22,500,000 of 4½ per cent. serial joint equipment trust bonds, of which $2,000,000 mature annually January 1.

In December, 1885, the West Shore Railroad was leased for 475 years, lessee guaranteeing 4 per cent. interest on $50,000,000 bonds. This company holds the entire capital stock of the West Shore Railroad. The Rome, Watertown & Ogdensburg was acquired in March, 1891, under guarantee of 5 per cent. on its $10,000,000 stock and interest on its bonds. The Beech Creek Railroad was leased in 1890 for a guaranty of 4 per cent. on $5,000,000 1st mortgage bonds and 4 per cent. dividends on $5,000,000 stock. The lease of the Boston & Albany Railroad provides for 8 per cent. dividend on $25,000,000 stock. The Dunkirk, Allegheny Valley & Pittsburg was leased 1873 for a guaranty of 7 per cent. interest on $2,900,000 7 per cent. bonds and 1½ per cent. dividends on $1,300,000 stock. The New York & Harlem (which see) was leased 1873 for interest on its bonds and 8 per cent. on its stock, the dividends being increased to 10 per cent. in 1900 in consequence of the refunding of the New York & Harlem bonds at 3½ per cent. The Walkill Valley Railroad, 33 miles, is leased and 3½ per cent. guaranteed on its $330,000 of stock.

The company has a four-fifths interest in the Boston Terminal Co. On May 31, 1907, this company absorbed by merger the Consolidated Railway Co., which comprised 640 miles of electric railways. It controls the New England Navigation Co., which absorbed the Providence Securities Co., having 288 miles of electric roads. See statement of the New England Navigation Co. in the Industrial Section of the MANUAL. It also controls the Connecticut Co., with 161.33 miles of electric lines. It was interested in the New England Investment & Security Co., which operates about 440 miles of electric roads. See statement of the New England Investment & Security Co., in the Industrial Section of the MANUAL.

In 1893 this company leased the Old Colony Railroad, carrying with it the lease to the latter of the Boston & Providence Railroad. In 1895 it acquired the New England Railroad Co. and merged the latter with it in 1907. The New England Railroad Co. was a reorganization of the New York & New England Railroad Co.

In June, 1907, this company acquired $10,994,800 stock of the Boston & Maine Railroad in exchange, share for share for its own stock, and it was proposed to merge the two companies. The Massachusetts Legislature enacted a law prohibiting such a consolidation prior to July, 1, 1908, and in 1908 this company's holdings were transferred to other parties. In 1909, under authority granted by Massachusetts, the Boston Railroad Holding Co. was incorporated, the New Haven owning all of the $3,106,500 stock of that company and the interest in the Boston &

Maine formerly held by the New Haven was taken over by the Holding Co. See statement of the Boston Railroad Holding Co.

In February, 1904, this company purchased a controlling interest consisting of $4,488,550 common and $3,471,000 preferred stock in the Central New England Railway Co., including the Poughkeepsie Bridge, and control of the Newburgh, Dutchess & Connecticut Railroad Co. was acquired in 1905, that property being now operated as part of the Central New England system. In November, 1904, a majority ($29,160,000) of the stock of the New York, Ontario & Western Railway Co. was purchased.

In December, 1906, control of the Rhode Island Securities Co., which represented the trolley system of Providence and its vicinity, was acquired. The Providence Securities Co. was organized in 1906 to hold these properties through subsidiary companies, the Rhode Island Co., the United Traction & Electric Co. and the Rhode Island Suburban Railway Co. The New Haven owns $9,685,500 stock of the Rhode Island Co.

In 1906, the properties of the Connecticut Railway & Lighting Co., were leased to the Consolidated Railway Co., and in 1906, the Connecticut Co. took over the operation of the same. In 1910, the gas and electric-lighting interests involved were transferred to the Housatonic Power Co., a subsidiary corporation. The New Haven owns the $40,000,000 stock of the Connecticut Co.

This Company has acquired the greater part ($4,924,000) of the stock of the New York, Westchester and Boston Railway which is building an electric road between 138th Street, New York City and Mount Vernon, N. Y.

Locomotives, 1,220; passenger cars, 2,522; freight cars, 35,716; service cars, 1,179; floating equipment, 3 steamboats, other 72.

Dividends of 2½ per cent. quarterly, or 10 per cent. per annum, were paid from 1872 until July, 1894, when the rate was reduced to 2 per cent. quarterly, or 8 per cent. per annum, and have since been paid on that basis. Dividends are paid March (30), June, September and December.

In November, 1905, stockholders of record December 1, 1905, were given the right to subscribe at par to the extent of $37.50 for each share of stock to an issue of convertible 3½ per cent. debentures, due January, 1956, interest January and July. The said debentures are convertible into stock of the company at the holder's option between January 1, 1911, and January 1, 1916, at the rate of $150 of the certificates for $100 of the stock. Subscriptions under the privilege in question were payable in instalments to April, 1908, inclusive.

In 1907 it was proposed to give stockholders the right to subscribe for a large issue of new stock at $125 per share. In November, 1907, this plan was modified, it being decided to issue $39,029,600 six per cent. debentures due January, 1948, interest payable January and July, the same being convertible into stock at par after January 15, 1923. Stockholders of record December 2, 1907, were given the right to subscribe at par for these debentures on or before January 15, 1908, to the extent of $100 of the debentures for each three shares of stock held by them and holders of the 3½ per cent. debentures, convertible into stock between 1911 and 1916, were also given the right to subscribe for the new debentures at par to the extent of $100 of the latter for each $450 of the 3½ per cent. debentures, including subscription warrants for the 3½ per cents. upon which the third instalment had been paid. Payments on subscription for the new 6 per cent. debentures were due in four instalments of 25 per cent. each on January 15, 1908, July 15, 1908, January 15, 1909 and July 15, 1909.

Stockholders of record November 8, 1909, received the right to subscribe to the extent of 25 per cent. of their holdings for new stock at $125 per share. The holders of 6 per cent. convertible debentures shared in this right to the extent of one new share for each $400 of said debentures, and holders of the 3½ per cent. convertible debentures to the extent of one new share for each $600 of that class of debentures. The total amount subscribed for under this arrangement was $44,644,900 of new stock. Payments on subscriptions are in four equal instalments of $31.25 per share on December 20, 1909; June 20, 1910; December 20, 1910, and June 20, 1911. This will increase the outstanding stock by approximately the above amount.

Obligations Secured by Coal Mortgages

Gold notes, 5 per cent., secured by 1st mort., Elk Hill Coal & Iron Co., due 1900–15, June and Dec..... $2,000,000

The Ontario, Carbondale & Scranton was built to afford this company access to the Lackawanna coal region. All its securities are owned by the parent company and both its stock and bonds are deposited with the trustee of the refunding mortgage.

The refunding mortgage ($20,000,000 authorized) was created in 1892 to retire $4,000,000 old 1st mortgage 6 per cent. bonds, which were redeemable at 110, and not retired with the 5 per cent. issue and the 5 per cent. consols, and to provide for future additions to property. The old 6s and 5s have been retired.

Under the charter of this company the preferred stock elected a majority of the directors until a dividend had been paid on the company's common stock. In 1903-04 certain holders of the common claimed that the policy of the management in devoting all surplus earnings to improvements was unjust. After considerable controversy a plan was ratified at the annual meeting in September, 1904, for the creation of a new mortgage for $12,000,000 and the issue of $2,000,000 of bonds thereunder, which would provide reimbursement for the company's capital expenditures and leaves $10,000,000 for future requirements. A dividend of 3 per cent. on the stock from accumulated earnings was paid January 16, 1905, on the common accordingly divesting the preferred stock of the right to elect a majority of the company's directors.

NORTHERN SECURITIES CO.

A corporation formed under the laws of New Jersey, November 13, 1901. The company has power to acquire and hold the stock and securities of railroad and other corporations. It was organized in pursuance of plans to bring under one ownership the stocks of the Great Northern Railway Co. and the Northern Pacific Railway Co., which companies had acquired joint ownership of the stock of the Chicago, Burlington & Quincy Railroad Co.

In November, 1901, the holders of the preferred stock of the Great Northern Railway, which was then $125,000,000 in amount, were offered $180 per share, and those of the $155,000,000 of Northern Pacific common stock $115 per share for their stock, payable in stock of this company. Under the above offer this company acquired about 99 per cent. of the stock of the Northern Pacific Railway and 75 per cent. of that of the Great Northern Railway.

See below in regard to the reduction of the company's capital and the distribution of its holdings of Great Northern and Northern Pacific stock. On December 31, 1910, the company had in its treasury securities carried at $6,600,949, and comprising 14,963 shares of Chicago, Burlington & Quincy Railroad stock, and 27,552 shares of the stock of the Crow's Nest Pass Coal Co., Limited.

Stock.....Par $100 .....Authorized, $400,000,000.....Issued, $3,954,000

The authorized stock as given is the original amount. See below regarding the reduction of the outstanding stock.

Transfer Agents, Hudson Trust Co., Hoboken, N. J.; Nicholas Terhune, 26 Liberty street, New York. Registrar, Manhattan Trust Co., New York.

The first dividend paid on the stock of the company was 1 per cent. quarterly, paid February 1, 1902. And similar dividends were paid in February (1), May, August and November until February, 1903, when the quarterly dividend was increased to 1⅛ per cent., putting the stock on a 4½ per cent. basis, which rate was paid until February, 1904, inclusive, when dividend payments were deferred in consequence of the decree of the United States Courts regarding dividends on the company's holdings of Northern Pacific and Great Northern stocks.

On the reduced capital stock or "stubs" an annual dividend of 5 per cent. was paid January 10, 1906, out of receipts for the year ending December 31, 1905, and 5 per cent. was also paid January 10, 1907, and January 10, 1908. On January 11, 1909, paid 4 per cent., on January 10, 1910, 2½ per cent., and on January 10, 1911, 4 per cent.

It was stated that the managements of the companies whose stocks were acquired by the Northern Securities Co. would be kept separate and distinct, and that no consolidation or merger of those corporations was intended. Opposition to the formation of this company, however, developed, and in 1902 a suit was brought in the United States Circuit Court by the United States to test the legality of the company.

In April, 1903, the United States Circuit Court, in the case of the United States against the Northern Securities Co., its constituent railroad companies and various individual directors and officers, decided in favor of the Government, and declared the acquisition by the company of interests in the Great Northern Railway Co. and the Northern Pacific Railway Co. to be an illegal combination.

On March 14, 1904, the Supreme Court of the United States affirmed the decision of the United States Circuit Court referred to above. On March 22, 1904, a circular was issued by the company stating that a special stockholders' meeting had been called to consider the following propositions, which were duly ratified on April 21, 1904.

First—That the capital stock of the company be reduced from 3,954,000 shares to 39,540 shares, being a reduction of 99 per cent.

Second—That said 99 per cent. of the outstanding shares be called in for surrender and cancellation.

Third—That against each share of the stock of this company so to be surrendered there should be delivered $39.27 stock of the Northern Pacific Railway Co., $30.17 stock of the Great Northern Railway Co., and proportionate amounts thereof for each fraction of a share of stock of this company so to be surrendered.

The terms of the above distribution were as follows:

		Northern Securities Co.'s Holdings	Entire Issue
Northern Pacific Railway stock	$39.27	$153,759,400	$155,000,000
Great Northern Railway stock	30.17	118,124,200	124,109,200

Stockholders on surrendering their original certificates received certificates for the 1 per cent. of the same to be retained, commonly called "stubs," and the proportionate amounts of the other stocks as set forth above.

Interests which had sold their holdings of Northern Pacific stock to the Northern Securities Co. objected, however, to the plan and obtained an injunction forbidding the Northern Securities Co. to part with the Northern Pacific stock to which they made claim, their claim being that the stock of the Northern Pacific, or of the Great Northern deposited, should be specifically returned to the holders of the Northern Securities stock, representing the same. An appeal was taken by the company to United States Circuit Court of Appeals, which on January 3, 1905, reversed the original decision. An appeal was, however, taken by the plaintiff in this action to the Supreme Court of the United States prior to the formal dissolution of the injunction. On March 6, 1905, the Supreme Court dismissed this appeal, thus sustaining the validity of the plan of distributing the company's assets given above.

The company's income account for the calendar year, 1906, showed: dividends received, $248,219; interest and exchange, $16,173; total receipts, $264,392; deduct taxes and expenses, $53,272; dividends paid (5 per cent.), $197,020; surplus, $14,100. In 1907, receipts, $358,691, payments including 5 per cent. dividends on stock, $226,080; surplus, $132,611. In 1908, receipts, $202,181; surplus, $170,330. In 1909, receipts, $119,744; payments, $128,808; deficit, $9,064. In 1910, receipts, $174,848; payments, $128,714; surplus, $46,133; surplus account, December 31, 1910, $2,696,634.

PENNSYLVANIA RAILROAD CO.

A corporation chartered by the Commonwealth of Pennsylvania, April 13, 1846.

The lines operated directly by this company, in its system East of Pittsburg and Erie, December 31, 1910, consisted of: railroad owned, 2,098.79 miles; railroad operated under lease, or as agent, 1,707.75 miles; canal and ferries, 68 miles; total operated, 3,874.54 miles.

The aggregate mileage of all lines, December 31, 1910, owned, controlled or affiliated with the company, east of Pittsburg and Erie, was 6,297.79 miles. West of those points, 5,104.73 miles; total 11,402.52 miles.

Locomotives, 3,426; passenger cars, 2,222; freight cars, 139,680; service equipment, 3,955; floating equipment, 319.

See separate statements of the various leased and controlled companies, including the United New Jersey Railroad and Canal Co.; Northern Central Railway; Long Island Railroad; Philadelphia, Baltimore & Washington Railroad; Cumberland Valley Railroad; West Jersey & Sea shore Railroad; Baltimore, Chesapeake & Atlantic Railway; Western New York & Pennsylvania Railway; Belvidere Delaware Railroad; Pittsburg, Fort Wayne & Chicago Railroad, etc.

In 1910, a lease of the Northern Central Railway Co. which this company controlled, was arranged for 999 years, from January 1, 1911, but the consummation of the matter was delayed by legal opposition on the part of the minority stockholders of the Northern Central Railway.

The lines owned, leased and controlled west of Pittsburg are operated through the organizations of the Pennsylvania Company, the Pittsburg, Cincinnati, Chicago & St. Louis Railroad Co., the Grand Rapids & Indiana Railroad Co., the Cleveland, Akron & Columbus Railway Co. and the Vandalia Railroad Co., and are more fully described under the statements of those companies.

The company controls a large anthracite property, owned by the Summit Branch, the Lykens Valley, the Mineral Railroad & Mining and the Susquehanna Coal companies. The Pennsylvania Canal, Columbia to Nanticoke, Pa., and branches, 249 miles, is also controlled.

The Allegheny Valley Railway Co., which this company controlled, was leased in 1900. In March, 1906, its consolidation with this company was authorized and in April, 1910, it was merged. In 1900, control of the Western New York & Pennsylvania Railway was acquired and the road leased, being operated since August 1, 1900, together with the Allegheny Valley Railway, as the Buffalo & Allegheny Valley Division of the Pennsylvania Railroad Co.

In 1901 this company and affiliated organizations acquired large interests in the stocks of the Pennsylvania Steel Co. and the Cambria Steel Co.

In 1899–1900 the company acquired important interests in the Baltimore & Ohio, Chesapeake & Ohio, and Norfolk & Western roads. In 1906, however, all the Chesapeake & Ohio stock was sold together with a majority of its holdings of Baltimore & Ohio and Norfolk & Western stocks, a large profit accruing to the company from these sales. In 1909 and 1910, the company, however, increased its interest in the Norfolk & Western, and on December 31, 1910, held $31,660,800 common and $5,820,000 preferred stock of that company, subsidiary companies of the Pennsylvania also holding additional amounts.

. The company had an interest in the stock of the New York, New Haven & Hartford Railroad Co., which was increased in 1910 to $6,000,000 of said stock.

In 1908, the company acquired nearly all the $2,500,000 stock of the New York, Philadelphia & Norfolk Railroad Co., giving $300 per share in 4 per cent. stock trust certificates for the same.

In May, 1900, control of the Long Island Railroad was acquired. In the latter part of 1901 the management of this company formulated comprehensive plans for a depot at Thirty-third street and Seventh avenue, New York City, with tunnels under the North and East Rivers, connecting the main system with the Long Island Railroad, also to construct a connection between the Long Island Railroad and New England points by a bridge over the East River at Mott Haven, N. Y. The companies to construct and operate the New York tunnels and terminal were the Pennsylvania; New Jersey & New York Railroad, and the Pennsylvania, New York & Long Island Railroad. The New York Connecting Railroad Co. was organized to furnish a connection with the New York, New Haven & Hartford Railroad system. In February, 1903, preliminary work was begun on the construction of these extensions, and in March, 1904, contracts were let for the tunnels under the North and East Rivers at New York. This work was completed in 1910, and the tunnels and terminal were opened to Long Island in August, 1910, and to New Jersey in November, 1910. The cost of the New York tunnel and terminal extension as carried in the balance sheet of December 31, 1910, was $55,565,415 to that date. The total cost was $112,965,415, of which $47,400,000 was charged against income and profit and loss, and $10,000,000 was contributed by the Pennsylvania Company from its profit and loss account.

Included in the property owned and represented by the capital account are stocks and bonds of other companies having a par value of $346,608,178 and costing $280,069,601. The cash income received from the company's holdings of securities in the form of interest and dividends during 1910 was $14,999,876. The company has also established a trust for the purchase of the securities of its leased lines, which, on December 31, 1910, held securities having a par value of $18,366,620, interest and dividends on which are paid into the trust.

Stock.....Par $50.....Authorized, $600,000,000.....Issued, $412,610,700

On December 31, 1910, there were also outstanding, $3,025 convertible bonds, receipts exchangeable for stock.

Transfer agencies, Broad Street Station, Philadelphia, and 85 Cedar street, New York. Registrars, Girard Trust Co., Philadelphia; American Exchange National Bank, New York.

The authorized capital of the company was originally $151,700,000. In January, 1901, the Commonwealth of Pennsylvania, by statute, provided for an increase of $100,000,000 in the stock, making it $251,700,000, authorized.

In April, 1900, $6,700,000 of new stock was issued and sold, making the stock outstanding $151,700,000, or the full amount then authorized. At the annual meeting in March, 1901, the stockholders authorized an increase of $100,000,000, the directors to issue the new stock at their discretion, but at not less than par. The increase was to pay for the company's recent acquisitions of other roads. In March, 1901, stockholders were offered the right to subscribe for new stock at $60 per share to the amount of 33⅓ per cent. of their holdings. This involved the issue of $50,500,800 new stock and increased the amount outstanding to $202,200,800 at the close of 1902.

At the annual meeting, March 10, 1903, the stockholders ratified an increase of $198,300,000 in the authorized capital stock, raising the total amount thereof from $251,700,000 to $400,000,000. The directors were given powers to issue the same as might be necessary, and it was provided that of the increased stock $50,000,000, if deemed advisable, might be in the form of convertible bonds. On March 16, 1903, stockholders of record May 9, 1903, were given the right to subscribe at $60 per share, between June 15 and June 27, 1903, for $75,094,705 new stock to the extent of 33⅓ per cent. of their respective holdings. A syndicate organized by Speyer & Co. and Kuhn, Loeb & Co., New York, underwrote the above issue.

At the annual meeting March 12, 1907, the stockholders ratified a further increase of $100,000,000 in the authorized stock, raising the total amount thereof to $500,000,000, the directors to issue the new stock at their discretion.

Stockholders of record November 15, 1909, had the privilege of subscribing to the extent of 25 per cent. of their holdings for new stock at par, payable either in full, between December 8 and December 18, 1909, or 30 per cent. between those dates; 30 per cent. between February 23 and March 1, and 40 per cent. between May 26 and June 1, 1910.

At the annual meeting, March 14, 1911, a further increase of the authorized stock to $600,000,000 was ratified. Stockholders of record, in 1911, were given the right to subscribe at par to the extent of 10 per cent. of their holdings in new stock, subscriptions payable 50 per cent. each, May 31 and August 31, 1911. At the latter date the stock issued will be upwards of $453,800,000.

The company has paid dividends on its stock in every calendar year since 1850. Dividends from 1901 are shown below in table of earnings. The dividends were paid May 31 and November 30. The books of the company do not close for dividends. The May, 1900, dividend was 2½ per cent., but the November dividend was 2½ per cent. and 1 per cent. extra, making 6 per cent. for the year 1900. In May, 1901, 2½ per cent. was paid, but the November dividend was again 2½ per cent. and 1 per cent. extra, making 6 per cent. for the

year 1901. In 1902, 1903, 1904 and 1905 the semi-annual dividends were 3 per cent. regular each, or 6 per cent. per annum. In May, 1906, 3 per cent. was paid, but the November, 1906, dividend was increased to 3½ per cent., thus placing the stock on a basis of 7 per cent. per annum., which continued to be the rate to November, 1907, inclusive. The May, 1908 dividend was, however, 3 per cent., which was also the rate paid in November, 1908 and in May and November, 1909, the stock being thus placed on a 6 per cent. basis.

At the beginning of 1910, it was decided to pay the dividends quarterly instead of semi-annually, and the first quarterly payment was 1½ per cent., paid February 28, 1910, which has since been the regular rate. The quarterly dividend periods are February (28), May, August and November.

PERE MARQUETTE RAILROAD CO.

A corporation formed under the laws of Michigan and of Indiana, December 11, 1907, in pursuance of a plan to reorganize, without foreclosure, the company of the same name. The Pere Marquette Railroad of Indiana was consolidated with this company.

The old Pere Marquette Railroad Co. was formed under the laws of Michigan, November 1, 1899, and consolidated the Flint & Pere Marquette Railroad Co., the Detroit, Grand Rapids & Western Railroad Co., and the Chicago & West Michigan Railway Co. Full details of the constituent companies were given in the MANUAL for 1899 under their respective titles. The consolidation plan of 1899 was stated in the MANUAL for 1900.

A lease of the system to the Cincinnati, Hamilton & Dayton Railway Co. was made for 999 years, from March 1, 1905. In December, 1905, a Receiver was appointed for both the Pere Marquette Railroad and the Cincinnatti, Hamilton & Dayton Railway, the lease to the Cincinnati, Hamilton & Dayton being subsequently annulled. See below regarding the terms of the reorganization plan of 1907.

The company's system extends from Suspension Bridge, N. Y., via Detroit to Chicago, via Grand Rapids, Mich., with branches to Toledo, Port Huron, Mich., Saginaw, etc., comprising: road owned, 1,411.56 miles; controlled, 198.81 miles; leased and trackage, 304.62 miles; branch lines, 406.54 miles; business producing branches, 43.36 miles; total, 2,364.88 miles; less leased to other companies, 36.54 miles; total operated, 2,328.34 miles. Included in trackage is St. Thomas, Ont., to Suspension Bridge, 115.33 miles over the Michigan Central Railroad.

Locomotives, 437; passenger cars, 371; freight cars, 18,846; floating equipment, 8 river and lake car ferry steamers.

In 1903 the old company acquired the Lake Erie & Detroit River Railway Co., Sarnia to Rondeau, Ont., and Walkerville (opposite Detroit), to St. Thomas, Ont.

In 1903 arrangements were made between this company, the Lake Shore & Michigan Southern Railroad for trackage over its lines to Chicago, and with the Michigan Central for trackage from St. Thomas to Suspension Bridge and Black Rock. The company had a contract with the Chicago Terminal Transfer Railroad Co., now the Baltimore & Ohio Chicago Terminal Railroad Co., for use of the latter's tracks and terminals at Chicago.

In 1903 this company, in conjunction with the Bessemer & Lake Erie Railroad Co., acquired control of the Marquette & Bessemer Dock & Navigation Co.

The 1st preferred was 4 per cent. non-cumulative for three and a half years to December 31, 1910, and then became cumulative. It has a preference as to assets. The 2d preferred is 4 per cent. non-cumulative without preference as to assets.

The Cincinnati, Hamilton & Dayton Railway Co., in June, 1904, acquired $11,000,000 of the common stock. About March 1, 1911, it was stated that this holding had been sold to J. P. Morgan & Co., New York.

The first dividend on the preferred stock of the old company was 4 per cent., paid February 11, 1901, out of the profits of the year 1900. A $20,000,000 purchase-money 6 per cent. mortgage loan of 1896 of the Philadelphia & Reading Railway Co., due 1997, is all held by the Reading Company, and is pledged as security for the latter's general 4 per cent. mortgage. The general mortgage is also secured by deposit of $14,266,687 bonds of other companies and $27,099,225 stocks of other companies.

The general mortgage of the Reading Company is for $135,000,000, of which $51,109,357 was reserved to take up underlying bonds of the railway and the coal and iron companies. These bonds have a sinking fund of 5 cents per ton on all coal mined in any year provided a dividend is paid on the stock, and if the aggregate of dividends exceeds that sum the sinking fund payment shall equal the dividends. Under this provision, $4,888,000 of the bonds had been retired up to June 30, 1910. In 1911, the company issued $20,343,000 additional of these bonds, of which $18,811,000 were sold to refund the consolidated mortgage bonds of the Philadelphia & Reading Railway Co., which mature June 1, 1911, and of which $10,649,000 were 7 per cent. and $8,162,000 6 per cent. Trustee of the mortgage, Central Trust Co., New York. Interest is paid at the company's office, Philadelphia, and at the office of J. P. Morgan & Co., New York.

The Reading Company's Jersey Central collateral trust 4 per cent. bonds were created in 1901 to provide for the purchase of control of the Central Railroad of New Jersey. They are secured by deposit with the Pennsylvania Company for Insurance on Lives and Granting Annuities, Philadelphia, trustee, of $14,504,000 stock of the Central Railroad Co. of New Jersey, $1,495,000 stock of the Perkiomen Railroad Co., being all but $5,000 of that stock, and $440,000 stock of the Port Reading Railroad Co. The mortgage provides for a total issue of $45,000,000, but additional bonds can be issued only to acquire further amounts of Jersey Central stock. The bonds can be redeemed at 105 and interest after April 1, 1906, on six months' notice. Interest is paid at the office of J. P. Morgan & Co., New York.

The Reading Company's Wilmington & Northern collateral trust certificates were created in 1900. They are secured by deposit with Girard Trust Co., Philadelphia, trustee, of nearly all the $1,500,000 stock of the Wilmington & Northern Railroad Co., which road is leased to the Philadelphia & Reading Railway Co. The bonds have no date of maturity, but are redeemable at 105 and interest. Agent for payment of interest, Girard Trust Co., Philadelphia.

The railway company guarantees the following dividends per annum upon the stocks of leased lines: Catawissa Railroad preferred, 5 per cent. on $3,200,000, May (10) and November; Mine Hill & Schuylkill Haven Railroad, 6 per cent. on $4,200,000, being 2½ per cent., January (15), (½ per cent. deducted for taxes) and 3 per cent., July; Chestnut Hill Railroad, 6 per cent. on $195,000, quarterly, March (5), June, September and December; Philadelphia, Germantown & Norristown Railroad, 12 per cent. on $2,246,900, quarterly, March (5), June, September and December; North Pennsylvania, 8 per cent. on $5,405,550, quarterly, February (25), May, August and November; Delaware & Bound Brook Railroad, 8 per cent. on $1,800,000, quar-

THE ROCK ISLAND CO.

CHICAGO, ROCK ISLAND & PACIFIC RAILROAD CO.

THE CHICAGO, ROCK ISLAND & PACIFIC RAILWAY CO.

The Rock Island Co. is a corporation formed under the laws of New Jersey, July 31, 1902, for the purpose of carrying out the plans for the control and capitalization of the system of railroads owned by Chicago, Rock Island & Pacific Railroad Co. referred to below. The Rock Island Co. is a holding or investment corporation, its charter vesting it with power to acquire and hold, sell or dispose of, mortgage or pledge, the stocks or securities of other corporations, and to exercise the voting powers which may attach to the same.

The company owns all of the $145,000,000 stock of the Chicago, Rock Island & Pacific Railroad Co., which acquired control of The Chicago, Rock Island & Pacific Railway Co. The Chicago, Rock Island & Pacific Railroad Co. also controlled the St. Louis & San Francisco Railroad Co. but disposed of its interest in the latter company in 1909. See below. Also see annexed statements of The Chicago, Rock Island & Pacific Railway and Railroad Companies.

The mileage of roads operated June 30, 1910, comprised only the lines of the Chicago, Rock Island & Pacific system, 8,024.28 miles. Prior to the seggregation of the St. Louis & San Francisco and its affiliated lines, the total, June 30, 1909, was 14,578.05 miles.

In 1904 The Chicago, Rock Island & Pacific Railway Co. acquired $14,320,000 common and $4,470,000 preferred stock of the Chicago & Alton Railway Co., but in August, 1907, sold most of this stock, which carried control of the Chicago & Alton property, to the Toledo, St. Louis & Western Railway Co.

In May, 1903, the Chicago, Rock Island & Pacific Railroad Co. offered to the owners of the $29,000,000 common stock of the St. Louis & San Francisco Railroad Co. $60 in common stock of the Rock Island Co. and $60 in 5 per cent. collateral trust bonds of the Chicago, Rock Island & Pacific Railroad Co. for each share of 'Frisco common. In pursuance of this offer, the Chicago, Rock Island & Pacific Railroad Co. acquired $28,940,300 of the St. Louis & San Francisco common, carrying with it control of that system. The St. Louis & San Francisco, however, was operated by its own management, but in December, 1909, a syndicate headed by B. F. Yoakum acquired the St. Louis & San Francisco stock in question, thus severing that company and its controlled properties from the Rock Island Co's system. The 5 per cent. collateral trust bonds of the Chicago, Rock Island & Pacific Railroad Co. of which $17,364,180 were outstanding were called and paid February 1, 1910.

Stock..Par $100...Authorized { com., $96,000,000 / pref., 54,000,000 } Issued { com., $90,742,102 / pref., 49,845,180 } $140,587,282

The preferred stock is 4 per cent. and was non-cumulative, from 1903 to 1909 inclusive. Commencing with 1910, it became entitled to 5 per cent., non-cumulative, until and including 1916, and thereafter to 6 per cent. The preferred stock also has a preference up to the par value thereof as to assets of the company in case of a dissolution.

Stock is transferred at the office of the company, New York. Registrar, Bankers Trust Co., New York.

The first quarterly dividend on the preferred stock was 1 per cent., paid February 2, 1903, and regular quarterly payments at that rate were paid in February, May, August and November. In January, 1906, the directors, however, omitted the February 1, 1906, dividends, it having been decided to suspend dividends for the present, and none has since been paid.

The stocks of The Rock Island Co. were issued in pursuance of a plan announced in August, 1902, by which holders of stock of the old The Chicago, Rock Island & Pacific Railway Co. were offered in exchange for each $100 of the old stock the following securities:

$100 in 4 per cent. collateral trust bonds of the Chicago, Rock Island & Pacific Railroad Co.

$100 in common stock of The Rock Island Co.

$70 in preferred stock of The Rock Island Co.

Of the $74,877,200 outstanding stock of The Chicago, Rock Island & Pacific Railway Co. ($75,000,000 authorized) $71,207,400 has been acquired by the Chicago, Rock Island & Pacific Railroad Co.

The preferred stockholders have the right to elect a majority of the directors, or five of the nine directors provided for in the original incorporation, and should the number of directors be increased, the preferred stock shall still be entitled to choose a majority. This is accomplished by classifying the directors, the first class of five members of the board being those elected by the

preferred stockholders. This right can only be surrendered by a two-thirds vote of the preferred stock at a special meeting called for the purpose. The number of directors has been increased to fifteen, the first class elected by the preferred stockholders being eight in number.

It is provided that there shall be a finance committee elected by the directors from their own number who shall exercise the powers of the board when the latter is not in session.

In the original formation of The Rock Island Co. its directors were given power to buy and sell the stocks of the company at their discretion for its account. This was modified by a by-law providing that the company can only purchase its own stocks for the purpose of retiring and cancelling the same. Furthermore, while the directors have power to make and alter the other by-laws, the above by-law cannot be rescinded or changed except by a vote of the stockholders at an annual or special meeting.

The Baltimore Steam Packet Co., running steamers between Norfolk, Va., and Baltimore, is controlled by this company, and it also has an interest in the Old Dominion Steamship Co., which operates a line between New York and Norfolk and Richmond.

In January, 1905, a plan was submitted whereby the stockholders were invited to exchange their stock for the stocks of a new holding company under the title of The Seaboard Co. See statement of that company. Under date of May 18, 1905, certain modifications were made in the original plan. In July, 1905, it was announced that the plan had become operative, that over 82½ per cent. of the stock had been exchanged under the modified plan, The Seaboard Co. being accordingly vested with a controlling interest in this company's stock.

Interest on all bonds is paid at the company's office, New York.

The 1st mortgage 4 per cent. bonds are $75,000,000, authorized, and are a 1st mortgage on 287 miles of road. Trustee, Continental Trust Co., Baltimore. Of the total amount $29,725,000 are held to retire underlying bonds of the system, and $12,500,000 are reserved for improvements and extensions.

The collateral trust 5 per cent. bonds, due May 1, 1911, were created in 1901, and are redeemable at 105.

In January, 1904, the company created $5,000,000 of collateral trust and general lien 5 per cent. bonds, due March, 1907, which in February, 1907, were extended until May 1, 1911.

The adjustment plan for this company issued by a committee July, 1, 1909, and declared operative in September, 1909, provided that there should be no foreclosure. To provide for future capital requirements, a refunding 50-year 4 per cent. bond issue for $125,000,000 was authorized, and part of these bonds may be sold from time to time when needful. The plan included the creation of the adjustment income bonds entitled to 5 per cent., if earned, but cumulative as to such interest. Stockholders had the right to subscribe for these bonds at 70 to the extent of 30 per cent. of their holdings. A syndicate underwrote $18,000,000 of the adjustments at 70 less commission, thus providing cash for the retirement of the Receivers' certificates (amounting to $7,500,000) as well as for the payment of $700,000 of 6 per cent. notes floating debt and part due coupons on the company's 1st mortgage bonds. The $6,345,000 general mortgage 5 per cent. bonds were to be exchanged for adjustment bonds and the 1st mortgage bonds to be stamped as subject to call on any interest date. The plan reduced the fixed charges of the company from $4,261,000 to $3,288,000 per annum. The full 2½ per cent. for the first six months' interest on the adjustment bonds was paid August 1, 1910, and the 2d coupons of 2½ per cent. was also paid February 1, 1911.

In January, 1911, the sale of $19,000,000 of 4 per cent. refunding bonds, due October, 1915, April and October, to a syndicate, was arranged for the proceeds of this issue to be used to retire the $14,651,000 collateral trust bonds, maturing May 1, 1911.

The collateral trust, 4 per cent. gold bonds, were issued in 1899, and are secured by a deposit with the Union Trust Co., New York, trustee, of $17,000,000 preferred stock of the Central Pacific Railway and all the $67,274,200 common stock of the Central Pacific Railway acquired by the Southern Pacific Co.

The convertible 4 per cent. bonds were created in 1909, the authorized issue being $82,000,000. The bonds are convertible into common stock at 130 for the latter until June 1, 1919, and redeemable by the company at 105 on any interest date after March 1, 1914. Stockholders of record, both common and preferred, March 15, 1909, were given the right to subscribe on April 20, 1909, to the extent of 30 per cent. of their holdings for the new bonds at 96.

The 4½ per cent. gold bonds are $100,000,000 authorized and were created in connection with the retirement of the preferred stock in 1909. After July, 1912, they are redeemable at 105.

The San Francisco Terminal mortgage was authorized in April, 1910, for $50,000,000, and covers the Bay Shore Line and terminals at San Francisco. Trustee of the mortgage, United States Trust Co., New York.

Interest on all the company's bonds is paid at its office, 120 Broadway, New York.

This company guarantees the principal and interest of the Southern Pacific Railroad Co.'s 1st consolidated refunding mortgage, which was created in 1905 for $160,000,000.

SOUTHERN RAILWAY CO.

A corporation chartered February 20, 1894, by the Legislature of Virginia to succeed the Richmond & Danville Railroad Co. The company purchased the properties of the Richmond & West Point Terminal Railroad and Warehouse Co., which were reorganized under the plan submitted by Drexel, Morgan & Co. in May, 1893, and modified in February, 1894.

Full details of the reorganization of the property were given in the MANUAL for 1899. The plan was issued in May, 1893, and the present company entered into possession of the principal lines July 1, 1894.

Road operated June 30, 1909, as follows:

	Miles		Miles
Owned	4,292.99	Trackage	469.73
Controlled	463.01		
Controlled and leased	1,037.56	Total mileage	7,087.99
Leased	813.30	Less operated separately	37.82
Operated under agreement	11.40		
Total mileage operated			7,050.17

In addition to the above mileage this company controls the following properties, which are operated under their own management:

Alabama Great Southern Railroad, 357 miles; Mobile & Ohio Railroad, 926 miles; Augusta Southern Railroad, 83 miles; Georgia Southern & Florida Railway, 397 miles; Northern Alabama, 117 miles; Virginia & Southwestern Railway, 134 miles; Cincinnati, New Orleans & Texas Pacific Railway, 336 miles; Chicago, Indianapolis & Louisville Railroad (joint control), 591 miles.

In 1903 this company, jointly with the St. Louis & San Francisco Railroad Co., acquired terminal properties at New Orleans under the title of the New Orleans Terminal Co. This company also has a one-sixth interest in the stock of the Richmond-Washington Co. See separate statement of the latter company.

The company operates 200 miles of steamship routes. It controls the York River Line of boats between Baltimore and West Point, Va., and the Norfolk Line, between Baltimore and Norfolk.

The company, with the Cincinnati, Hamilton & Dayton has a joint control of the Cincinnati, New Orleans & Texas Pacific Railway Co., lessee of the Cincinnati Southern.

In February, 1901, this company acquired control of the Mobile & Ohio Railroad by a purchase of its stock and general mortgage bonds. In August, 1906, it acquired the entire $2,000,000 stock of the Virginia & Southwestern Railway Co., 134 miles.

The system comprises nearly all the lines of the former Richmond & Danville; East Tennessee, Virginia & Georgia, and Georgia Pacific companies, which were controlled or operated by the Richmond Terminal Co. That company also controlled the Central Railroad & Banking Co. of Georgia, which, however, was separated from it by legal complications, and it was reorganized as the Central of Georgia Railroad Co. In 1907 the stock of the latter company ($5,000,000, which was held by the Reorganization Committee of the Richmond & West Point Terminal Co.) was sold, and the Southern Railway Co. received the benefit of the sale. The Memphis & Charleston and Mobile & Birmingham roads, portions of the old East Tennessee, Virginia & Georgia, were not included in the reorganization, and the Alabama Great Southern and Cincinnati Southern (Cincinnati, New Orleans & Texas Pacific Railway) were also kept out of the new system, though the control of the two latter, as above stated, has since been acquired. In January, 1898, the Memphis & Charleston was acquired by this company, and in 1899 the Mobile & Birmingham.

Locomotives, 1,531; passenger cars, 1,074; freight cars, 50,000; road service equipment, 1,242; floating equipment, 23.

Stock.....Par $100.....Authorized, $350,000,000 Issued { com., $120,000,000 / pref., 60,000,000 } $180,000,000

The preferred stock is 5 per cent., non-cumulative. Both classes of stock were held in a voting trust, J. Pierpont Morgan, George F. Baker and Charles Lanier, trustees for five years, or until a dividend of 5 per cent. has been paid in one year on preferred stock. In 1902 practically all the stockholders assented to an extension of the voting trust until October, 1907, and thereafter until a majority of the assented stock should vote in favor of dissolving the trust, or unless terminated by the action of the trustees.

In 1900 the Legislature of Virginia authorized the company, with the assent of its stockholders, to reduce the amount of the common stock outstanding from $120,000,000 to $60,000,000, but no steps to that end have been taken beyond the acceptance of this provision of the amended charter.

Transfer Agents, J. P. Morgan & Co., New York. Registrar, Central Trust Co., New York.

A dividend of 1 per cent. on the preferred stock, the first in the company's history, was declared in December, 1896, payable January 4, 1897. A second dividend of 1 per cent. on the preferred was paid January 20, 1898. In January, 1899, 1 per cent. was paid on the preferred; 1 per cent. in October, 1899; 1½ per cent. April 6, 1900; and 1½ per cent. October 16, 1900, this making 3 per cent. paid on the preferred for the fiscal year 1899-1900. The half-yearly dividend paid April 9, 1901, was increased to 2 per cent., and the same rate was paid October 16, 1901. The March, 1902, dividend was increased to 2½ per cent., which remained the regular semi-annual rate on the preferred stock until October 17, 1907, when only 1½ per cent. was paid which was taken from the accumulated surplus. No dividends were paid thereafter until 1 per cent. was declared in February, 1911, payable April 24, 1911. The dividend periods were April and October.

In 1901 this company acquired, through the Oregon Short Line Railroad Co., large holdings of Northern Pacific stock, which in 1902 were exchanged for $82,491,871 stock of the Northern Securities Co. and $8,900,007 in cash. After the dissolution of the Northern Securities Co. in 1905 this company disposed of the greater portion of the holdings of Northern Pacific and Great Northern preferred stocks which came into its possession. It, however, held on June 30, 1910, $724,900 Northern Securities "stubs," the same being in the treasury of the Oregon Short Line Railroad Co. Its remaining interests in the Northern Pacific stock and Great Northern Iron Ore Properties shares were disposed of in 1909-10.

On June 30, 1910, the Union Pacific held investment stocks as follows: Chicago & Alton Railroad preferred, $10,343,100; Illinois Central stock, $22,500,000; Railroad Securities Co. common, $3,482,900; Railroad Securities Co., preferred, $1,935,900. In the treasrury of the Oregon Short Line Railroad Co. there were, on that date, $32,334,200 Baltimore & Ohio common and $7,206,400 of Baltimore & Ohio preferred; $4,018,750 Chicago & Northwestern common; $1,845,000 Chicago, Milwaukee & St. Paul preferred; $17,857,100 New York Central & Hudson River Railroad stock, and $12,500,000 stock of the San Pedro, Los Angeles & Salt Lake Railroad Co.

In July, 1903, the Oregon Short Line Railroad Co. sold to the San Pedro, Los Angeles & Salt Lake Railroad Co. the portion of its line extending from Salt Lake to Calientes, Nev., and branches, 396 miles, reducing the mileage of the system to that extent. The Union Pacific through the Oregon Short Line thereby acquired the above interest in the San Pedro, Los Angeles & Salt Lake Railroad Co.

Stock..Par $100...Authorized { com., $296,178,700 / pref., 200,000,000 } Issued { com., $216,579,700 / pref., 99,569,300 } $316,149,000

The preferred stock is entitled to 4 per cent., non-cumulative dividends, out of the yearly earnings, but is not entitled to further participation in any surplus. In 1899 the preferred was increased to $100,000,000, and in May, 1905, to $200,000,000, the purpose being, it was stated, to finance future capital requirements.

The common stock was increased from $27,460,100 to $88,460,100 in January, 1899, to provde for exchange of same for minority stock of Oregon Short Line, holders of which were offered the right to convert their stock on payment of $3 a share. In October, 1899, the common authorized was increased to $97,687,600 in order to provide for acquisition by exchange of the outstanding stocks of the Oregon Railroad & Navigation Co. and the stock and income B bonds of the Oregon Short Line Railroad Co. In 1901 the common stock authorized was increased to $196,178,700 in order to provide for the conversion of the collateral trust bonds. See below as to terms of conversion for this issue. In June, 1907, a further increase of $100,000,000 in the common was authorized to provide for the conversion of the new 4 per cent. convertibles of 1907.

The holders of Oregon Navigation preferred and common stocks outstanding were in October, 1899, offered the right to exchange the same, share for share, for the similar class of Union Pacific stock. The Oregon Short Line Railroad income B bonds were offered the right to exchange their holdings for Union Pacific preferred stock. On June 30, 1910, the Union Pacific had acquired all the $27,350,700 of the Oregon Short Line stock and all but $20,100 common and $3,410 preferred stock of the Oregon Railroad & Navigation Co. At the same date this company also held all but $321,000 of the Oregon Short Line income A bonds and all but $37,000 of the latter's income B bonds. This company owns all the stock of the Oregon-Washington Railroad & Navigation Co.

Transfer agency, 120 Broadway, New York. Registrar, Mercantile Trust Co., New York.

This company began the payment of dividends on the new preferred stock with 1½ per cent. October 31, 1898. On April 19, 1899, 1½ per cent. was paid, and in October, 1899, company was put on a 2 per cent. semi-annual basis, making the full 4 per cent. to which the preferred is entitled. The preferred dividends are paid, 2 per cent. each, April and October. The first dividend of 1½ per cent. on the common was declared in February, 1900, payable April 2, 1900. October 1, 1900, a second dividend of 2 per cent. was paid on the common, putting it on a 4 per cent. basis, and such dividends were regularly paid in April and October, until October, 1905, when 2½ per cent. was paid, thus putting the stock on a 5 per cent. basis. The April, 1906, dividend was however, again increased to 3 per cent. making the annual rate 6 per cent. and on October 1, 1906, 5 per cent. semi-annual was paid of which it was stated 3 per cent. was from operations and 2 per cent. from investments. The April 1, 1907, dividend was also 5 per cent. Beginning with July 1, 1907, the dividends on the common were made quarterly payable 2½ per cent. each in January (1), April, July and October, or 10 per cent. per annum, which has continued to be the regular rate.

Of the old collateral trust convertible bonds created in 1901, which were $100,000,000 authorized, all but $569,000 were converted into stock prior to July 1, 1906, and the balance were called for payment at 102½ on November 1, 1906, thereby releasing 859 miles of railroad from the lien of said bonds.

The funded debts of the Oregon Short Line and Oregon-Washington Railroad & Navigation are given under their respective statements.

Details of the funded debt of the predecessor company—the Union Pacific Co.—its indebtedness to the Government through the issue by the United States of subsidy bonds in aid of the construction of the road, will be found in full in the MANUAL for 1900.

The 1st mortgage and debentures cover all lines both east and west of the Mississippi owned by the company in 1889. Sufficient 1st mortgage bonds were reserved to provide funds to retire prior liens on lines west of the Mississippi River. The 2d mortgage covered only 1,012 miles of lines east of the Mississippi, but included a first lien on rolling stock valued at about $3,000,000. Trustee of 1st mortgage, Central Trust Co., New York. Trustee of 2d mortgage, Metropolitan Trust Co., New York. Interest on the 1st and 2d mortgage bonds is paid at the Central Trust Co., New York.

The Terminal 4 per cent. 1st lien bonds, created in January, 1904, are $10,000,000 authorized, the outstanding bonds covering terminal properties at St. Louis.

Trustee of the 1st refunding and extension mortgage and agent for payment of interest, Equitable Trust Co., New York.

The company's income debenture bonds created at the time of the reorganization were divided into Series A, $3,500,000, and Series B, $26,500,000. Under their terms holders were entitled in the order of the bonds to interest up to 6 per cent. per annum if earned, and had one

vote at the company's meetings for each $100 par value of their bonds, also to nominate one-half of the Directors. Until 1909 the A debentures were redeemable at par. Series A received 6 per cent. for years ending June 30, 1890, 1891, 1892 and 1893; 1 per cent. for the year ending June 30, 1896, and 6 per cent. for 1900 to 1903, inclusive, the payments being made yearly in the ensuing January. In January, 1904, 3 per cent. was paid on the As, but the 1904 interest was passed. In July, 1907, 6 per cent. was paid. No interest was paid on the B debentures until July, 1907, when they received 1 per cent. Since the new arrangement was made payments of interest on the income debentures have been as follows: on the A bonds, in July, 1907, 6 per cent.; in 1908, 3 per cent.; in 1909 and 1910, 6 per cent.; in January, 1911, 3 per cent. On the B bonds, in 1907, 1 per cent.; in 1908, 1 per cent.; in 1909, 2 per cent.; in 1910, 4 per cent.; in January, 1911, 2 per cent.

In 1906, an agreement was reached between the company and the representatives of the debenture incomes, the plan being to retire the bonds in question and also to provide for future capital requirements. The details included the increase of the common stock to $159,500,000 and the preferred to $40,500,000, with the creation of a new 1st refunding and extension mortgage for $200,000,000, of which $22,862,500 would be required for the retirement of the debenture, sufficient of the issue to be reserved to refund or retire all existing liens and the balance to be used only for extensions or improvements. This plan was formally ratified in October, 1906, and the issue of 4 per cent., refunding and extension bonds was authorized to carry out the retirement of the debenture. The offer submitted to the debenture holders was as follows: each $1,000 A debenture to be exchanged for $795, in new 4 per cent. bonds, $580 in preferred stock and $580 in common stock, while each $1,000 B debenture was to be exchanged for $720 in new bonds, and $520 each of preferred and common stock. In 1910, all the A debentures and all but $1,276,000 of the B debentures had been exchanged.

The 1st refunding and extension mortgage is for $200,000,000. Trustee and agent for the payment of interest, Equitable Trust Co., New York.

The 4½ per cent. notes were created in 1905 for five years, and were extended in 1910 for three years. They were originally $10,000,000. They are secured by the deposit of $8,000,000, Wabash-Pittsburg Terminal Co. stock and other securities.

WESTERN MARYLAND RAILWAY CO.

A corporation formed under the laws of Maryland, December 1, 1909, in pursuance of a reorganization of the railroad company of the same name which was foreclosed and sold November 19, 1909, being purchased by the reorganization committee. See below for terms of the reorganization plan.

The predecessor corporation, the Western Maryland Railroad Co., was chartered by the State of Maryland May 27, 1853, under the title of the Baltimore, Carroll & Frederick Railroad Co., the name being subsequently changed.

On March 5, 1908, the old company was placed in the hands of a Receiver by the United States Court, at Baltimore. This action was taken in view of its inability to meet maturing loans.

The old company became indebted to the City of Baltimore for guarantees and credits extended to it in aid of the construction of the road and for past due coupons. The City also held a large amount of the stock. Washington County, Md., also had interests in the company, holding the entire issue of $324,000 preferred stock. A sale of these interests was authorized in May, 1902, to a syndicate, which had acquired the West Virginia Central & Pittsburg Railway Co., with its leased line, the Piedmont & Cumberland Railroad, a total of 209 miles. The syndicate repesented interests connected with the Wabash Railroad, and the purpose was to make this property the Eastern tidewater outlet of the Wabash system. The price paid for the City's holdings was $8,651,370, and the syndicate also purchased the interests of Washington County in the property. Nearly all the outstanding stock was acquired.

In October, 1905, the West Virginia Central & Pittsburg was merged with the Western Maryland Railroad Co.

The MANUAL for 1905 contains a full statement of the West Virginia Central & Pittsburg Railway Co. and its controlled properties, the Piedmont & Cumberland Railroad Co. and the Coal & Iron Railway Co. It also owned and controlled a large coal property, together with the Davis Coal & Coke Co., which had 50,000 acres of coal lands and 700 coke ovens. The syndicate managers of the Western Maryland Railroad Co. added largely to the coal interests of the system.

In February, 1906, the line from Cherry Run to Cumberland, 59 miles, which connected the Western Maryland and the West Virginia Central & Pittsburg was completed. In January, 1907, this company acquired control of the George's Creek & Cumberland Railroad Co.

In January, 1910, a traffic contract was made between this company and the Pittsburg & Lake Erie Railroad Co. (New York Central Lines), the arrangement including the construction of a connecting line between the two roads from Cumberland, Md., to Connellsville, Pa.

Road owned, Baltimore to Cumberland, Md., and Bellington, W. Va., 292.40 miles; branches, 97.11 miles; total owned, 389.51 miles; leased, Baltimore & Cumberland Valley, 34.1 miles; Baltimore & Harrisburg and branches, 97.58 miles; Washington & Franklin Railroad, 19.11 miles; trackage, 2.70 miles; total operated, 543 miles. Controlled and operated separately, George's Creek & Cumberland Railroad Co.; Cumberland to New Detmold, Md., and branches, 32.53 miles. The extension of the line from Cumberland to Connelsville, about 83 miles, was in progress at the beginning of 1911. Locomotives, 173; passenger cars, 135; freight cars, 7,030; floating equipment, 5.

Stock..Par $100...Authorized { com., $50,000,000 / pref., 10,000,000 } Issued { com., $24,830,800 / pref., 10,000,000 } $34,830,800

The preferred stock is 4 per cent. non-cumulative, with priority as to assets. It is convertible into common stock at par and can be called at par by action of the stockholders.

In order to provide for the construction of the road from Cumberland, Md., to Connellsville, Pa., connecting at the latter point with the Pittsburg & Lake Erie Railroad Co. (New York Central Lines) the stockholders of record March 30, 1910, were offered the right to subscribe at $50 per share for $25,469,670 of common stock. Subscriptions for the additional stock were payable in five instalments of $10 each, on or before April 5, 1910; October 1, 1910; April 1, 1911; October 1, 1911, and April 1, 1912, respectively, with interest allowed at 3 per cent. on the last three instalments. The offering was underwritten by a syndicate formed by Blair & Co., New York. The rights were to the extent of 75 per cent. of original holdings. When the new stock is issued the common will be $49,429,170.

The initial dividend on the preferred stock was 1 per cent. quarterly, paid April 20, 1910, and similar quarterly dividends have been made since on January (20), April, July and October.

Stock is transferred in the company's office, New York. Registrar, Equitable Trust Co., New York.

The 4 per cent. 1st mortgage of the old company is for $50,000,000 and was created in 1902. The bonds are secured by the company's property, including its interests in leased and auxiliary lines and the entire capital stock of the West Virginia Central & Pittsburg Railroad Co. Trustee of mortgage and agent for the payment of interest, Mercantile Trust Co., New York.

The old railroad company had outstanding $15,685,400 of stock of the par value of $50 per share, together with $10,000,000 general lien and convertible 4 per cent. bonds, due 1952. There was also $42,518,000 of 1st mortgage 4s which were left undisturbed by the organization as well as the divisional lien bonds. Under the plan of reorganization which was dated July 26, 1909, the holders of the general lien 4s were offered par in new preferred stock and $8.36 in new common stock, together with the privilege of subscribing for new common at 40 to the extent of 50 per cent. of their holdings. Holders of the old common were given the right to subscribe for 100 per cent. of their holdings in new common at 40. The company guarantees dividends on the stock of leased lines as follows: Baltimore & Cumberland Valley Extension Railroad, 7 per cent. on $270,000 preferred stock and 5 per cent. on $120,600 common stock, January and July; Washington & Franklin Railway, 5 per cent. on $150,000 stock, January and July; Baltimore & Harrisburg Railway, 5 per cent. on $29,100 preferred stock, May and November.

" " 4 per cent., due Aug., 1951, Feb. and Aug.	51,354,100
Total	$104,702,100

The amount of 4 per cent. gold debentures includes 4 per cent. bonds of the Consolidated Tobacco Co. not yet exchanged.

Both issues of gold debenture bonds are secured by a trust indenture, not a mortgage, to the Guaranty Trust Co., New York, trustee. Under this, in 1905, $440,250 of the 6 per cent. bonds were purchased and retired; in 1906, $441,800; in 1907, $458,150; in 1908, $473,200; in 1909, $455,550, and in 1910, $473,450.

The old American Tobacco Co. was formed under the laws of New Jersey, January 20, 1890. It acquired the property and works of a number of firms and companies principally engaged in the manufacture of cigarettes and smoking tobacco, a list of which was given in the company's statement in the MANUAL for 1904. See the MANUAL for 1907, for a full account of the merger and exchange of the securities of the old companies for those of the present organization.

CALUMET & HECLA MINING CO.

A Michigan corporation which, in 1900, renewed its charter for thirty years from April 13, 1901. It was originally formed in 1871 by consolidation of the Calumet, Hecla, Portland and Scott Copper Companies.

This company is proprietor of one of the richest copper-producing properties in the world. Its mines are situated at Calumet and Red Jacket, Houghton County, Michigan. It owns several thousand acres of land with stamp mills and other accessories, including three systems of water works. It has a smelting plant at Hubbell (Torch Lake), Mich., and another at Black Rock, near Buffalo, N. Y. It owns the Hecla & Torch Lake Railroad, with 20 miles of tracks, serving the various plants, and a fleet of lake steamers and barges.

The company acquired a controlling interest in the La Salle Copper Co., which in January, 1907, took over certain lands belonging to the Calumet & Hecla and purchased the properties of the Tecumseh and other copper companies. This company and its subsidiaries also acquired interests in the Allouez Mining Co., the Osceola Consolidated Mining Co., the Centennial Copper Mining Co. and others.

In January, 1911, a plan was submitted for merging this company and its subsidiary and controlled companies. The plan provided for the formation of a new company under the laws of Michigan, with an authorized capital stock of $10,000,000, par value $25. Of the new stock $8,434,825, or 337,393 shares, were to be issued in exchange for the stocks of the various companies or in payment for their property. The different companies included under the plan and the basis for the exchange of their respective stocks for that of the consolidated companies were as follows:

Companies to be Consolidated:	Rate of Exchange New Stock	For Each	No. of Old Shares	Allotment of New Shares
Calumet & Hecla Mining Co.....	2 2-5 shares	1 share	100,000	170,834
Seneca Mining Co.....	30-100 shares	1 share	20,000	6,000
Ahmeek Mining Co.....	80-100 shares	1 share	50,000	40,000
Allouez Mining Co.....	17-100 shares	1 share	100,000	17,000
Osceola Cons. Mining Co.....	50-100 shares	1 share	96,150	48,075
Centennial Copper Mining Co.....	6-100 shares	1 share	90,000	5,400
Tamarack Mining Co.....	22-100 shares	1 share	60,000	13,200
Laurium Mining Co.....	10-100 shares	1 share	40,000	4,000
La Salle Copper Co.....	2-100 shares	1 share	302,977	6,059
Superior Copper Co.....	18-100 shares	1 share	100,000	18,000
Property to be Purchased:				
Isle Royale Copper Co.....	7-100 shares	1 share	150,000	8,825
Gratiot Mining Co.....	1-200 shares	1 share	100,000	
Leaving available for future use.....				62,607

The par value of the old stocks was $25 per share, except that of the Gratiot Mining Co., which was $3 per share, the Seneca Mining Co.'s stock being $10.05 per share paid in, and the Ahmeek Mining Co.'s $17 per share paid in. In addition to the above allotment, the Calumet & Hecla Mining Co. would receive 69,166 shares of the new stock in exchange under the plan for its holdings of stocks of the other companies, so that holders of Calumet & Hecla stock would receive for each share of same 2 2-5 shares of the new stock. The Isle Royale Copper Co. being a New Jersey and the Gratiot Mining Co. a Maine corporation, made it necessary for the consolidated company to purchase their property instead of consolidating those companies.

A special meeting of the Calumet & Hecla Mining Co.'s stockholders was held on March 7, 1911, to ratify the above plan.

CHICAGO RAILWAYS CO.

A corporation formed under the laws of Illinois in October, 1903. In pursuance of a plan dated October 15, 1907, for the reorganization of the Chicago Union Traction Co. this company on January 25, 1908, acquired at foreclosure sale the property of that organization, comprising the lines of the North Chicago Street Railroad Co. and the West Chicago Street Railroad Co. and their subsidiary companies. See statement of the Chicago Union Traction Co. in the MANUAL for 1907.

The length of the lines acquired was 308 miles of electric railways, in the northern and western divisions of Chicago and the downtown business district. In December, 1910, the company purchased 128 miles of tracks, being the portion of the Chicago Consolidated Traction Co. within the City limits of Chicago, this being additional to the foregoing mileage. The total system comprises 445 miles of single track.

The Chicago Consolidated Traction Co. was controlled by the Chicago Union Traction Co., and had 183.14 miles of track in Chicago, Evanston, Ill., and the township of Cicero, Cook County, Ill. It was placed in the hands of Receivers in June, 1908. Litigation on the part of certain holders of its bonds to hold the Chicago Railways Co. for a guarantee of same by the Chicago Union Traction Co. ensued, and in May, 1910, Receivers were appointed for this company pending the suit. The Receivers were discharged December 27, 1910, the claim having been compromised and the property of the Chicago Consolidated Traction Co. sold at foreclosure on November 30, 1910. As stated above, the Chicago Railways Co. acquired the lines within the City of Chicago, the remainder being taken over by a distinct and independent corporation, the County Traction Co. For an account of the Chicago Consolidated Traction Co., see its statement in the MANUAL for 1910.

In January, 1911, it was stated that negotiations for a merger of the elevated railroads of Chicago with this company had been commenced.

The Chicago Union Traction Co. and its constituent companies, the North Chicago and West Chicago Street Railroads, were placed in the hands of Receivers in April, 1903, as the result of inability to finance the floating indebtedness of the constituent companies. The statement of the Chicago Union Traction Co. in the MANUAL for 1907, gives a full account of the ensuing litigation and of the negotiations with the municipality in relation to the franchises of the companies and the various movements to bring about municipal ownership.

In February, 1907, the City Council of Chicago passed an ordinance involving a settlement of disputes with the street railways and providing for a reorganization of the Chicago Union Traction Co. This ordinance was vetoed but was passed over the Mayor's veto, and at the city election, April 2, 1907, was ratified by the voters. The franchises granted expire February 1, 1927. The ordinance provided that in three years the properties should be freed from all the old liens, that the valuation of the roads should be placed at approximately $30,500,000, the City to have the right to purchase the roads at such valuation, plus amounts expended for reconstruction or extensions, including the building of subways. Outlays for such purposes are to be made under the supervision of a board of engineers. In accepting the ordinance the company waived all former grants and franchises and agreed to universal 5 cent fares and transfers, and of the surplus earnings, after deductions for expenses and charges and certain allowances to the company, the City is to receive 55 per cent. and the company 45 per cent.

See below regarding details of the reorganization and the terms for the exchange of the Chicago Union Traction's securities for those of the new company.

THE CLEVELAND RAILWAY CO.

A corporation formed under the laws of Ohio, February 26, 1893, as The Cleveland Electric Railway Co., the name being changed to the present style in 1908, when the property was leased to the Municipal Traction Co. The company was a consolidation of the Broadway & Newburgh Street Railroad Co., East Cleveland Railroad Co., Brooklyn Street Railroad and South Side Street Railroad. In 1908, The Forest City Railway Co., which had been leased to the Municipal Traction Co., was consolidated with this company. In November, 1908, a Receiver was appointed for the Municipal Traction Co., but was discharged in March, 1910.

In June, 1903, a plan was consummated for the consolidation of this company and the Cleveland City Railway Co., the arrangement taking effect July 1, 1903. See statement of the latter company in the MANUAL for 1903. Road owned and operated 250 miles.

After protracted difficulties with the City Government of Cleveland, which had organized The Municipal Traction Co., to put in force 3 cent fares, a settlement was reached in 1908, whereby the stock of this company was readjusted, the franchises renewed for 25 years from April 27, 1908, with a renewal every ten years and the property leased to the Municipal Traction Co. At a special election on October 22, 1908, the voters, however, failed to ratify this settlement and the receivership of the Municipal Traction Co. followed in November, 1908.

In October, 1909, the company and the City Council agreed to submit their differences to the arbitration of R. W. Taylor, United States District Judge, at Cleveland. He heard testimony and arguments and completed an ordinance drafted by the City Solicitor, which provides that the company shall operate its road at cost, this cost to include interest upon its floating and bonded indebtedness and dividends of 6 per cent., and no more upon its capital stock, which was fixed at the amount then outstanding, viz.: $14,675,600.

The ordinance was passed by the City Council on December 18, 1909, and was submitted to the people at a referendum election on February 17, 1910, and by them approved. The new franchise runs to May 1, 1934. It fixed an initial rate of fare which should continue for eight months at least, of three cents for a single ride with an additional cent for a transfer. If this rate of fare proved insufficient to enable the company to earn 6 per cent. dividends upon its stock, the fare could be raised, but the maximum fare must not exceed four cents cash, or tickets at the rate of seven for twenty-five cents with an additional cent for a transfer. At the beginning of 1911 the experimental fare was still in force.

Stock.....Par $100.....Authorized, $35,000,000.....Issued, $14,675,600

In order to carry out the merger of the Cleveland City Railway Co. with this company the stock was increased from $13,000,000 to $23,400,000. The holders of the $8,000,000 of stock of the Cleveland City Railway Co. received $130 per share in new stock for their shares.

The old stock was $23,500,000 in amount. Under the terms of the settlement of 1908, it was given a valuation of $12,870,000 or $55 per share, the old stock being exchanged for new on that basis. Of the authorized amount of new stock, $1,805,600 was given in exchange for the property of The Forest City Railway Co. Stockholders on March 10, 1910, were given the right to subscribe for 10 per cent. of new stock at par.

Transfer Agent, Citizens Savings & Trust Co., Cleveland. Registrar, Guardian Savings and Trust Co., Cleveland.

In 1897, dividends on the old stock were 3 per cent.; in 1898, 3¼ per cent.; in 1899, 2¾ per cent. In 1899, the October quarterly dividend was passed. In 1900, paid 3¾ per cent.; in 1901, 1902, 1903, 1904, 4 per cent.; in 1905 and 1906, 4¼ per cent. Dividends were paid quarterly, in January, April, July and October.

Under the lease to The Municipal Traction Co., dividends of 6 per cent. per annum were guaranteed on the new stock, payable quarterly, in January, April, July and October. The first dividend of 1½ per cent. was paid July 1, 1908, but the October, 1908, dividend was passed and no dividends were paid until April, 1910, when they were resumed and have since continued, at the quarterly rate of 1½ per cent.

The Colorado Industrial Co. guaranteed 5s are described below in connection with the plan of reorganization. It should be noted that Series A, limited to $14,000,000, were convertible into stock at par for the latter between February 1, 1902, and August 1, 1906 (which convertibility has expired), and Series B, limited to $30,000,000, non-convertible. Trustee of the mortgage and agent for the payment of interest, New York Trust Co., New York.

The Rocky Mountain Coal & Iron Co.'s 1st mortgage 5 per cent. bonds, guaranteed by this company, cover about 258,000 acres of coal and timber lands in Las Animas County, Colo.

In December, 1903, a committee, composed of James A. Blair, Otto T. Bannard, John E. Borne, William L. Bull and Philip Lehman, was formed to assist in the adjustment of the company's affairs, acting as representatives of the convertible debenture 5 per cent. bonds, which were issued in 1901, the terms under which they were issued including a prohibition of any further liens being placed on the property. The plan submitted by the committee included the creation of a mortgage by the Colorado Industrial Co. for $45,000,000, bonds to be guaranteed by this company, together with the retirement of the convertible debentures of 1901 and the raising of about $13,600,000 cash to repurchase properties sold, as well as to provide for the refunding of the company's old bonds and its future capital requirements. The holders of the convertible debenture bonds were to exchange them for the new bonds, dollar for dollar, with 20 per cent. additional in common stock as a bonus. The portion of the new bonds thus given in exchange in addition to being guaranteed by the Colorado Fuel & Iron Co., were convertible into the latter's common stock at par until August 1, 1906. The Colorado Industrial Co.'s bonds are secured by the deposit of the securities of the Colorado & Wyoming Railway Co., Crystal River Railway Co., and Rocky Mountain Coal & Iron Co., and $13,061,000 of the convertible debentures exchanged under the foregoing plan.

CONSOLIDATED GAS CO. OF NEW YORK

A corporation formed under the laws of New York, November 10, 1884. The company was a consolidation of the New York, Manhattan, Metropolitan, Municipal, Knickerbocker and Harlem Gas Companies of New York City. The company has 2,095 miles of mains, and at the beginning of 1911 had 826,916 gas meters and 159,405 electric meters in service.

In 1898 this company acquired a large interest in the Mutual Gas Co. In 1899 control of the United Electric Light & Power Co. was obtained. In 1900 a controlling interest in the New York Gas & Electric Light, Heat & Power Co. was acquired, which company controlled the Edison Electric Illuminating Co. of New York. In May, 1900, this company acquired control of the New Amsterdam Gas Co. In June, 1900, it purchased a large block of the Standard Gas Light Co.'s stock.

Through these acquisitions the company controls all the gas and the larger portion of electric lighting facilities in the Borough of Manhattan. In July, 1904, the company acquired control of the Westchester Lighting Co. and formed the New York & Westchester Lighting Co., which was merged with the Westchester Lighting Co.

The company has erected large gas plants at Astoria and Ravenswood, L. I., connected by a tunnel under the East River with its distributing system in Manhattan and a second tunnel to the Bronx is under construction. The above tunnels were built under the charter of the East River Gas Co. of Long Island City.

The Legislature of New York having passed an Act reducing the price of gas on May 1, 1906, to 80 cents per 1,000 feet this company instituted litigation to test the validity of the law. In connection with the suit the company had deposited up to February, 1909, about $9,117,392 to secure customers who paid $1 per 1,000 feet in case it was decided that only 80 cents could be charged. In January, 1909, the Supreme Court of the United States decided against the company in this suit and the return of the deposit to the consumers was ordered and effected.
